The background features several large, solid blue circular shapes. A thick blue arc is in the top-left corner. A small blue circle is partially visible behind the text. A large blue circle is in the bottom-left. A large blue arc is in the bottom-right. In the top-right, there are three small, faint pink dots.

**CLAW MACHINES**

## ECLAW 2.0

Dimensions: 1070D x 1770W x 2160H MM

Experience the world's smartest two-player claw, featuring a sleek modern design that anchors any arcade floor. Maximize your revenue with self-adjusting weight sensors and remote troubleshooting that eliminate manual maintenance. Attract high-spend players using a precision gantry system engineered for premium, high-value prize compatibility. Achieve total operational freedom with real-time error notifications and cloud-based settings control for zero downtime.

## HIGH FIVE

Dimensions: 1300W x 1150D x 2140H MM

Maximize player engagement with a revolutionary five-claw mechanism that allows for multiple wins in a single play. The sleek, frameless transparent cabinet features vibrant edge lighting and mirrored backdrops to showcase prizes brilliantly. Offer ultimate variety with customizable prize lanes designed for everything from plush bag clips to large 30cm prizes. Streamline your operations with an high-capacity interior and simplified restocking access built for high-traffic venues. Captivate crowds and boost floor revenue with this modern, stylish attraction that redefines the traditional prize game.

## WIN FALL REVOLUTION

Dimensions: 760w x 880D x 2100H MM

Captivate guests with a stunning, transparent cabinet and a rotating pedestal that turns your merchandise into a mesmerizing center-piece attraction. Maximize operator efficiency using the dual-clip system, allowing for a strategic mix of high-value prizes and high-frequency low-cost wins. Create a massive visual footprint by lining up the Red, Blue, and Yellow cabinets together to anchor your entrance or FEC floor. Ensure total player satisfaction with intuitive controls and an optional "Play Till You Win" setting designed for users of all ages.

## THE SMURFS CLAW MACHINE

Dimensions: 900W x 1060D x 2380H MM

Command attention on the game floor with a massive 32" digital display featuring vibrant, officially licensed 3D Smurf animations. Enhance accessibility for your youngest guests with a specialized, low-positioned control panel and ergonomic handle design. Experience unmatched reliability and ease of use through the integration of the all-new, operator-friendly NIC-E technology. Drive consistent engagement and repeat play by offering exclusive Smurf character plush in this high-visibility, fully branded cabinet.

## STRIKE HOOK

Dimensions: 1500W x 1500D x 2380H MM

Hook your audience with simple, addictive gameplay that transforms prize-winning into a visually captivating spectacle. Maximize your floor's earning potential with a powerful four-station configuration designed for high-frequency group play. Minimize operational downtime with an ultra-efficient prize replenishment system that keeps the action moving seamlessly. Command attention in any venue with a sleek, modern cabinet that showcases high-value inventory from every angle.

## E-CLAW 600

Dimensions: 630W x 1060D x 2110H MM

Maximize your floor's earning potential with a minimal footprint and a sleek, modern cabinet available in 1, 2, or 3-player configurations. Capture player attention instantly with mesmerizing RGB glow effects and a built-in display shelf designed to elegantly showcase premium prizes. Simplify your operations using the intelligent "IntraXion" control system, featuring a dedicated storage drawer for lightning-fast merchandise restocking. Experience total versatility with a self-adjusting gantry system and customizable manual or automatic setups tailored to your specific venue needs.

## E-CLAW 900

Dimensions: 900W x 1060D x 2110H MM

Command the floor with a stunning cabinet available in 1-player or 2-player formats, featuring a modern design that fits any high-end venue. Harness the power of energy-efficient RGB LED lighting with customizable colors that can be set to shift automatically for maximum visual impact. Optimize your profitability using the "IntraXion" control system, offering precise payout management and adjustable tease factors for better engagement. Deliver a premium experience in any location, from shopping malls to arcades, with a durable and attractive crane built for long-term revenue growth.

## E-CLAW COSMIC

Dimensions: 1200W x 1310D x 2110H MM

Command centerpiece attention with a massive 43" footprint, featuring white lacquered aluminum profiles and customizable RGB light-emitting facades. Specifically engineered to showcase and capture size 5 plush toys and large sports merchandise, driving higher player engagement and value. Maintain peak profitability with the advanced "IntraXion" control system, allowing for precision-tuned payouts and optimized player tease factors. Combine high-impact visual appeal with low-cost operations through eco-friendly, energy-efficient LED lighting built for longevity in any venue.

## COSMIC XL

Dimensions: 1500W x 1780D x 3000H MM

Drive massive engagement with a unique hybrid mechanic where players grab ticket-shaped prizes to trigger high-reward pusher chain reactions. Maximize player throughput with a high-capacity triple dispenser capable of holding 18,000 tickets for uninterrupted, high-volume action. Command attention from every angle with a premium 4-sided glass centerpiece cabinet designed to showcase the exciting "tease" gameplay. Ensure seamless operation in any modern venue with full compatibility for bill acceptors, cashless systems, and swipe card technology.

## BIG-E

Dimensions: 2500W x 2560D x 2750H MM

Dominate any high-traffic venue with a striking glass-walled cabinet and mesmerizing LED accents designed for maximum prize visibility. Features a massive XXXL claw capable of lifting up to 6kg, allowing you to showcase heavy ticket bags, giant plush, or knobby balls. Deliver a premium, immersive experience with an enclosed player area and a redesigned prize hole optimized for large-scale inventory. Built on the legendary Elaut Big One legacy, this novelty attraction is the ultimate centerpiece for malls, theme parks, and elite FECs

## XTREME BIG ONE

Dimensions: 3010W x 2460D x 3670H MM

Dominate your venue with a colossal 13-foot-tall cabinet that creates a stunning visual spectacle and draws crowds from every corner. Experience record-breaking profitability and "XTREME" ROI driven by the industry's most impressive and festive LED ultraviolet lighting system. Empower players with the innovative "Claw Vision" monitor, providing a precision-guided view to skillfully maneuver the mammoth prize claw. Integrate seamlessly into your route using advanced ConNext technology, ensuring the same reliable management found in the elite E-Claw series.

## FUN ZONE

Dimensions: 1420W x 1420D x 1630H MM

Light up your game room with a vibrant, festive cabinet featuring a rotating prize tub that challenges players to test their timing and skill. Maximize your floor's social engagement with a 360-degree island design that allows up to four players to compete simultaneously from all sides. Command attention from across the room with vivid, multi-colored LED lighting and a high-visibility display that makes winning a public spectacle. The ideal high-volume solution for family entertainment centers, built to deliver consistent group play and rapid-fire revenue in any modern arcade.

## PRIZE CUBE 6

Dimensions: 2600W x 2270D x 2490H MM

Transform your arcade into a high-energy destination with this revolutionary island unit that allows six players to compete simultaneously. Maximize floor visibility and group engagement with a fully transparent, 360-degree cabinet design that captures attention from every angle. Offer total prize versatility with a customizable range of claw options, perfectly engineered for everything from heavy plush to delicate jewelry. Create a fully immersive atmosphere using enchanting color-changing LED lighting and synchronized audio that builds anticipation with every play.

## SKILL CUT WINNER

Dimensions: 820W x 910D x 2080H MM

Challenge your guests with an exhilarating, high-stakes skill game where a single, perfect cut of a string releases a massive showcase prize. Master the tension with an intuitive "press and hold" button control that allows players to guide metal cutters with surgical precision. Drive venue excitement with integrated win alarms and vibrant cabinet colors that turn every successful cut into a floor-wide celebration. Maximize player satisfaction and retention with the "Mercy Redemption" feature, ensuring every participant walks away with a ticket payout.

## DOUBLE PLAY

Dimensions: 1480W x 990D x 2620H MM

Maximize player excitement with a unique dual-section cabinet that allows a single claw to target prizes across two distinct winning zones. Seamlessly switch between high-margin plush and high-velocity ticket redemption using integrated, removable RFID technology. Offer ultimate operational flexibility by quickly converting the machine from a hybrid setup to a full-plush configuration in minutes. Drive repeat play with a "play once, win twice" appeal that fits perfectly in any high-traffic family entertainment center.

## BLING KING

Dimensions: 1020W x 990D x 2060H MM

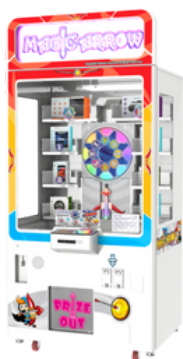

Elevate the arcade experience with a luxury-themed claw machine designed to showcase fabulous jewelry and premium "bling." The elegant black flannelette display creates a high-contrast, professional backdrop that makes every prize piece sparkle. Capture player attention with integrated bright spotlights that illuminate the booth for easy prize selection and maximum allure. Ensure every win arrives in style with a specialized prize chute engineered to protect delicate jewelry from damage upon delivery.

## SHOW TIME

Dimensions: 1200W x 1570D x 990H MM

Command the floor with a 360-degree island design that maximizes player engagement and offers total visibility of your prize inventory. Customize your revenue strategy by programming each of the four stations with independent pricing and individual difficulty settings. Create a festive, high-energy atmosphere with a brilliantly illuminated cabinet featuring synchronized, mesmerizing RGB LED lighting. Streamline your operations using the intuitive LCM display for rapid adjustments to game settings, ensuring an optimal player experience.

## MAGIC ARROW

Dimensions: 1040W x 840D x 2220H MM

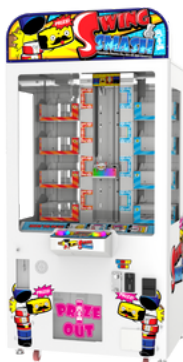

Drive high-frequency repeat play with an intuitive "one more go" mechanic that is easy to master for players of all ages and skill levels. Maximize your earnings with eight high-visibility prize shelves and an adjustable payout system that includes a "winner every time" option. Minimize operational downtime with a lightning-fast refilling process designed to keep your most attractive merchandise in the spotlight. Illuminate your venue with a brilliantly lit, inviting cabinet that draws crowds and creates a high-energy atmosphere for any game room.

## CAPTO CRANE

Dimensions: 820W x 840D x 2090H MM

Command the floor with a stunning 3D animated header and vibrant five-color LED lighting designed to draw instant attention to this compact single-player crane. Maximize prize allure with a mirrored back-panel that provides double visibility and makes your merchandise look irresistible to every passing player. Engineered for operational excellence with reliable mechanical parts, two internal prize holders, and a design that makes restocking and maintenance effortless. The versatile choice for any venue, perfectly optimized for 7" to 10" prizes with adjustable operator controls to fine-tune your payout strategy.

## SWING AND SMASH

Dimensions: 1030W x 990D x 2210H MM

Engage players of all ages with an intuitive "one-button" mechanic where precision timing swings the hammer to smash the lock and release top-tier rewards. Showcase high-value electronic merchandise, like smartphones and consoles, within eight brilliantly illuminated LED prize displays that command attention. Ensure maximum security and durability with an anti-theft steel cabinet featuring integrated tilt alarms and an optional mobile monitoring system. Optimize your revenue with operator-adjustable payout settings for every bin and a streamlined restocking system designed for peak efficiency.

## CAPTO CANDY

Dimensions: 820W x 840D x 2090H MM

Maximize your revenue in any high-traffic location with a compact, iconic crane designed to fit perfectly into malls, service stations, and smaller venues. Drive player satisfaction and repeat visits with the "Win Every Time" mode, ensuring every participant walks away with a smile and a sweet treat. Captivate passersby with a mesmerizing 3D gradient lighting header and five-color edge lighting that makes this single-player game a visual standout. Designed for high-efficiency operation with easy-access restocking features that keep the fun flowing and the machine earning around the clock.

## PRINT MY CASE

Dimensions: 1300W x 1150D x 2140H MM

Revolutionize your retail space with a high-speed kiosk that allows customers to design and print high-quality, personalized phone cases in just minutes. Offer a seamless user experience through a simple QR-code interface that lets guests upload photos and create custom collages directly from their smartphones. Maximize player engagement with an intuitive design software that supports multiple phone models, ensuring a perfect, protective fit every time. Drive high-margin revenue with a "design-to-delivery" workflow that turns digital memories into physical merchandise instantly on your venue floor.

## EMOJI COTTON CANDY

Dimensions: 1520W x 710D x 2070H MM

Captivate audiences with an automated robotic performance that crafts colorful cotton candy into 30 intricate shapes, including flowers, hearts, and stars. Deliver high-speed profitability with 90-second production times and a massive capacity of up to 350 servings per single ingredient filling. Offer endless variety with six vibrant colors and two premium toppings, allowing for hundreds of unique flavor and design combinations. Transform any venue with a sleek, contemporary centerpiece that functions as both a high-margin vending solution and a mesmerizing live attraction.

## EMOJI BALLOON

Dimensions: 920W x 1010D x 2350H MM

Turn any space into a magical celebration with a vibrant robotic merchandiser that lets players choose and fill their favorite character balloons in just 30 seconds. Watch the automated robot inflate each selection with a single press, delivering a high-tech spectacle that entertains onlookers of all ages. Maximize floor efficiency with a massive 200-balloon capacity and a handy integrated stick dispenser for every creation, ensuring high-volume sales. Command attention in high-traffic venues with mesmerizing, color-chaser LED lighting and a sleek, modern cabinet designed for 2026 performance standards

## PANTHER PHOTO BOOTH

Dimensions: 730W x 990D x 1930H MM

Capture high-precision memories with a 10MP camera and innovative QR-PHOTO technology, allowing guests to scan, save, and share their photos instantly to social media. Transform the atmosphere with a striking integrated LED Video Wall that creates a fully immersive capture experience and draws crowds from across the venue. Unlock total brand customization by personalizing print frames, screen interfaces, and cloud-based landing pages with your logo, music, and targeted advertisements. Maximize profitability in any location with a versatile, classic-style booth footprint that supports diverse payment options and high-margin digital/physical revenue streams.

## ECCLIPSE PHOTO BOOTH

Dimensions: 1300W x 840D x 1940H MM

Command the room with a massive 12ft curved LED Video Wall that displays captures in real-time, attracting high-traffic crowds from across any venue. Offer a cutting-edge guest experience with integrated Augmented Reality technology that automatically applies digital props and seasonal accessories to every shot. Provide ultimate creative freedom with multiple formats, including classic black & white, custom collages, and a vast library of seasonal and standard frame designs. The premier choice for upscale locations and static settings, blending state-of-the-art technology with an immersive display to maximize social engagement and ROI.

## CUSTOMIZED CLAW MACHINE

Dimensions: 1100W x 900D x 2000H MM

Transform your brand identity with the 780 series, a modern blank-canvas crane designed for operators to apply their own unique graphics and custom-themed wraps. Maximize operational flexibility with customizable control options, allowing you to select between high-precision joysticks or intuitive push-buttons to suit your local audience. Benefit from industry-leading Elaut technology and energy-efficient LED lighting that delivers a high-impact visual presence with minimal power consumption. Experience exceptional value in a compact footprint, combining a solid, durable build with the latest crane mechanics for a reliable, high-ROI investment.

# **SPORTS AND SOCIAL MACHINES**

## MR HAMMER 2

Dimensions: 910W x 680D x 2250H MM

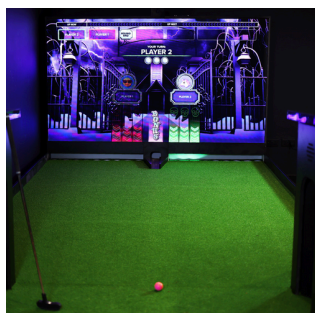

Mr. Hammer II brings classic hammer excitement to your floor with a bold, modern design and high-energy digital displays. Players strike the drum with full strength to trigger flashing lights and earn more tickets for every powerful hit. The fast-paced gameplay and engaging visuals attract crowds of all ages, encouraging repeat play and constant action. This addictive arcade experience transforms every heavy punch into a rewarding and high-impact attraction for any venue.

## CYBER BOXER

Dimensions: 1230W x 930D x 2280H MM

Cyber Boxer revolutionizes the boxing arcade experience with an HD camera that captures and replays every strike on a vibrant 32" screen. Social connectivity is built-in, allowing players to share highlight videos via QR codes and compete on 100-player online leaderboards across multiple locations. The machine features a durable, actuator-driven punch bag and weather-resistant construction, ensuring high performance and player safety in any high-traffic venue. Eye-catching edge lighting and a modern cabinet design draw crowds, while ticket redemption and cashless payment options maximize your revenue potential.

## INTERACTIVE MINI GOLF

Dimensions: N/A

Interactive Mini Golf reimagines the game on a single green featuring a high-resolution LED screen for real-time scoring and digital graphics. Players enjoy various mini-games like Killer and Brick Buster, combining traditional putting with modern interactivity to eliminate the need for walking between holes. The compact 2.5 x 6 meter footprint makes it a perfect fit for social venues, driving competition and food and beverage sales through fast-paced play. This all-in-one experience features a high-quality artificial green and multiple targets, delivering a seamless and unforgettable attraction for guests of all ages.

## INTERACTIVE DARTS

Dimensions: N/A

SMARTS Interactive Darts from Sega revolutionizes the classic game with a slick touch-screen interface and revolutionary autoscoring Smartboard technology. Players use real steel-tip darts on a professional bristle board while a dedicated screen tracks scores, displays selfies, and guides gameplay. The system offers multiple game modes with adjustable difficulty levels, ensuring a fun and social experience for participants of all skill levels. With a powerful session management system and world-class accuracy, this all-in-one setup provides a high-tech, seamless attraction for any modern venue.

### BABY AIR HOCKEY EVO

Dimensions: N/A

The Baby Air introduces young children to the excitement of air hockey with a brightly decorated, illuminated cabinet and shorter legs for easy access. Its revolutionary methacrylate playfield offers unmatched strength and lightning-quick gameplay, outperforming traditional vinyl surfaces for a premium experience. Safety is prioritized with a deep anti-flip puck rail and specially angled bats that protect small hands while keeping the puck securely on the table. The complete aerodynamic package of sculpted pucks and beveled rebound strips ensures smooth, fast-paced action that attracts and engages the youngest players.

### PUCK FRENZY

Dimensions: 1570W x 2250D x 1600H MM

Puck Frenzy delivers high-energy competitive action with a durable, scratch-resistant playfield and a digital scoreboard for real-time tracking. Vibrant multi-colored effects and custom red and blue player lighting create an immersive atmosphere that draws in arcade crowds. The automatic puck recycling system disperses multiple pucks randomly during play, challenging players to stay alert in a fast-paced environment. Equipped with dual ticket dispensers for extra rewards, this table combines difficult-to-master gameplay with high-impact entertainment for all visitors.

### FAST TRCK EVO AIR HOCKEY

Dimensions: 1370W x 2340D x 1830H MM

The Fast Track Evo Air Hockey is an FEC super-hit that captivates players of all ages with its fast-paced gameplay and revolutionary, modern design. A vibrant LED Glow presence illuminates the track, edges, and legs, creating a mesmerizing visual spectacle that draws crowds from every corner of your venue. The top-mounted digital score panel and adjustable sound settings ensure an immersive head-to-head experience for friends and family competing for victory. This ultimate evolution of a beloved classic combines universal appeal with high-energy upgrades to boost foot traffic and enhance customer satisfaction.

### AUGMENTED REALITY DARTS

Dimensions: N/A

SMARTS Augmented Reality Darts uses an ultra-bright laser projector to superimpose immersive gameplay graphics and animations directly onto a plain white Unicorn bristle board. The world's most accurate autoscoring system detects steel-tip impacts instantly, displaying targets and scores right where the dart lands for a mind-blowing visual experience. A slick touch-screen interface allows players to manage sessions, adjust difficulty levels, and choose from a growing library of interactive games with synchronized sound effects. This cutting-edge system combines traditional play with high-tech projection, creating a social and highly engaging attraction that stands out in any modern entertainment venue.

## MAGNO BISON

Dimensions: 2440W x 1220D x 1250H MM

The Magno Bison Pool table combines an elegant, cutting-edge design with steady profitability, making it a sophisticated focal point for any modern venue. Precision construction and high-quality materials ensure a smooth, accurate playing experience that satisfies even the most discerning professional players. Innovative features like the infallible magnetic cue ball and flexible payment configurations, including coin and card systems, offer superior control and convenience. Available in multiple sizes, this technologically advanced table delivers lasting durability and a touch of modernity to elevate your entertainment space.

## SLALOM AIR HOCKEY

Dimensions: 1100W x 2200D x 800H MM

Slalom Air Hockey elevates face-to-face competition with a unique curved playfield that introduces a thrilling element of chance and strategic trick shots. The durable, low-friction methacrylate surface allows players to swing pucks off the high banks or power straight through the middle for a goal. Building on industry-standard technology, this table features dazzling color-changing illumination and awesome graphics that create a high-impact visual presence. An overhead digital scoring unit provides live commentary and tracks every hit, delivering a modern twist on a classic arcade favorite for any venue.

## SUPER CHARGED SHUFFLE

Dimensions: N/A

Reimagined for modern competitive socializing, this classic shuffleboard features a luxury ash timber cradle and polished oak side bar tops for a premium aesthetic. The experience is elevated by dynamic color-changing lighting and a high-impact 50" LED display screen paired with enhanced audio-visual effects. An enclosed frame construction and adjustable table mounts ensure a durable, professional-grade setup that fits seamlessly into any high-end venue. This technological twist on a traditional game introduces shuffleboard to new audiences, combining sophisticated design with immersive digital scoring and interactivity.

## GRAND CHAMPION SHUFFLEBOARD

Dimensions: 9450W x 2740D x 1006H MM

The Grand Champion Shuffleboard exudes elegance with a solid maple timber cabinet, inlaid detailing, and a premium Canadian maple playfield for a smooth, consistent slide. Its patented Handicap Scoring system ensures fair and strategic competition for all skill levels, making it a perfect social centerpiece for bars, homes, or leisure centers. Available in seven sizes ranging from 9ft to the regulation 22ft length, this durable table is backed by a 20-year warranty on the wood and polymer coating. Each table comes fully equipped with a complete accessory kit, providing a luxury gaming experience that fosters camaraderie and long-lasting entertainment.

## HOOP IT

Dimensions: 1030W x 2500D x 2640H MM

HOOP IT delivers a premium basketball experience designed specifically for the adult gastro-gaming and competitive socializing market with its edgy branding and stylish design. The game features a dynamic moving hoop and exciting difficulty settings that challenge players while reactive LED lighting creates an immersive, high-energy atmosphere. Designed to fit seamlessly into bar environments, it allows for massive social competition by linking up to 15 machines for a true multiplayer experience. This interactive attraction combines sleek aesthetics with intense gameplay, making it the ideal centerpiece for any venue looking to boost engagement and repeat visits.

## HAMMER BOTTLE

Dimensions: 800W x 1400D x 2250H MM

Slalom Air Hockey elevates face-to-face competition with a unique curved playfield that introduces a thrilling element of chance and strategic trick shots. The durable, low-friction methacrylate surface allows players to swing pucks off the high banks or power straight through the middle for a goal. Building on industry-standard technology, this table features dazzling color-changing illumination and awesome graphics that create a high-impact visual presence. An overhead digital scoring unit provides live commentary and tracks every hit, delivering a modern twist on a classic arcade favorite for any venue.

## K STEEL 2

Dimensions: N/A

KSTEEL 2 represents the pinnacle of professional American billiards, featuring a solid structure and precision engineering designed for high-level club tournaments or luxury home use. Its completely flat rails and natural rubber cushions meet the most demanding sporting standards, ensuring optimal playing conditions and unrivaled durability for every game. As an industry leader, this table combines superior materials with top-quality cloth to deliver a smooth, reliable performance that satisfies professional and amateur players alike. Available in Allegro Matt or Black Spt finishes, the KSTEEL 2 offers a sophisticated aesthetic that establishes it as the premier choice for any competitive or private setting.

## RADIKAL DARTS IDARTS

Dimensions: N/A

The Radical Darts Touch Blue Edition features a touch panel, integrated cameras, and laser distance measuring to enable real-time online play against opponents worldwide. Players can see the board and their competitors simultaneously, supported by the patented Remote Refereeing System® for secure and validated tournament play anywhere. As the market-leading IDARTS® machine, it is highly regarded by operators for its stunning design, exceptional reliability, and high-performance sensor technology. This cutting-edge system connects the global darts community through its innovative interface, making it the top choice for competitive and social venue entertainment.

## HELLO KITTY BABY AIR HOCKEY

Dimensions: 770W x 1270D x 700H MM

Adorned with the iconic Hello Kitty design, this air hockey table combines beloved character charm with high-performance, professional-grade components. The revolutionary methacrylate playfield provides a crystal-clear, durable surface that ensures lightning-quick gameplay and superior strength over vinyl alternatives. Safety is integrated through SAM anti-flip top rails and specially angled bats, keeping the aerodynamic pucks securely on the table while protecting players' hands. This complete package features customizable puck speeds and a seamless design, creating an enchanting and high-quality attraction for fans and competitive players alike.

## MONSTER BABY AIR HOCKEY

Dimensions: 950W x 1530D x 700H MM

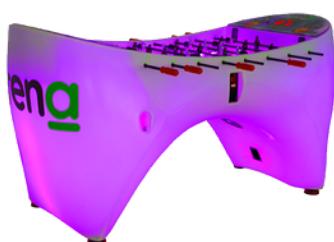

The Baby Air is a fun and engaging attraction featuring shorter legs and a brightly decorated, illuminated cabinet designed specifically for easy access by younger players. Safety is a priority with the inclusion of a deep, anti-flip puck rail, while a beveled rebound strip ensures a dynamic and thrilling gameplay experience for kids. Built with the same reliability and technical innovation as professional-grade models, this table is a durable addition to arcades, FECs, and children's play centers. Its eye-catching aesthetics and fast-paced action successfully attract crowds and encourage repeat visits, making it a must-have for any family-friendly venue.

## SLALOM BABY AIR HOCKEY

Dimensions: 950W x 1530D x 700H MM

The Slalom Baby Air combines a unique curved acrylic playfield with vibrant LED lighting and sound effects to create a world-class experience for children. Equipped with the advanced SAM9 electronic board, the table tracks seven distinct events and features an engaging attract mode to increase foot traffic and revenue. Its durable printed surface and high-tech design provide professional-grade reliability in a compact size, making it a standout centerpiece for family-friendly venues. Operators can customize light and sound settings and choose from various payment or ticket redemption options to optimize the game for any entertainment space.

## SAM ARENA FOOSBALL TABLE

Dimensions: N/A

The New SAM Arena features a stunning translucent cabinet and an illuminated playfield with intelligent RGB LEDs that react dynamically to home and away scores. Built from a one-piece synthetic cabinet with precise levelers, it includes professional metal players and solid steel bars for high-speed, competitive soccer action. The SAM9 electronic board manages seven distinct events, using customizable light and sound effects and an engaging attract mode to boost venue foot traffic and revenue. Operators can fully program game interactions and adjust settings via software, ensuring a personalized and high-impact experience for players in any social environment.

## TEMPO EVO FOOSBALL TABLE

Dimensions: N/A

The refreshed Tempo Evo soccer table features a striking green cabinet built from robust solid-core materials and metal legs to ensure long-lasting durability. Equipped with aluminum Boss players on solid rods and a printed phenolic playfield, it provides a smooth, professional, and highly accurate gaming experience. Designed specifically for the outdoors, this weather-resistant table includes anti-slip levelers and a large, secure coin-box for reliable operation in any environment. An electronic coin acceptor and quality-controlled construction offer operators a secure, low-maintenance solution that attracts players and guarantees high performance.

## TECNO FLAME FOOSBALL TABLE

Dimensions: 1680W x 900D x 900H MM

The Tecno Flame Football Table features a unique translucent playfield and open-top design, offering an illuminated, modern aesthetic that enhances visibility and style. High-quality chrome and graphite players are molded with individual feet for superior ball control, while raised corners ensure the game remains fast-paced and uninterrupted. The table is built for stability with internal steel legs and includes customizable LED lighting, an electronic coin mechanism, and a convenient built-in ball return system. Combining precision metal players with a vibrant, glowing surface, this table delivers a high-energy soccer experience that serves as a sophisticated focal point for any venue.

## ASTRO JUNIOR SLALOM

Dimensions: 970W x 1530D x 700H MM

The Astro Junior Slalom brings the excitement of air hockey to the youngest players with its specialized shorter legs, colorful cabinet, and compact, space-saving design. A deep anti-flip puck rail ensures a safe gaming environment, while the curved playfield and synchronized color-changing illumination create a visually stunning attraction for families. Designed for high-impact social entertainment, this model acts as a customer magnet in family entertainment centers by offering a fun and competitive experience for kids. This durable machine combines the all-ages appeal of air hockey with captivating aesthetics and engaging gameplay, successfully attracting both new and returning visitors.

## PUCK IT AIR HOCKEY

Dimensions: 1290W x 2250D x 1810H MM

PUCK IT Air hockey is specifically designed for the adult gastro-gaming and competitive socializing market, featuring edgy branding and a stylish aesthetic that fits any modern location. The experience is defined by a fully lit, scratch-resistant playfield and a striking lighting gantry that creates a high-energy atmosphere for intense social competition. Versatile gameplay options allow for both 2-player and 4-player matches, making it an ideal attraction for groups looking for an engaging and interactive night out. Equipped with transparent safety guards to ensure visibility and protection, this table combines premium durability with a visual presence that draws in crowds.

**VR MACHINES**

## UBISOFT ALL STAR VR

Dimensions: 2570W x 2570D x 2590H MM

Ubisoft All-Star VR unites iconic heroes from Assassin's Creed, Splinter Cell, Just Dance, and Far Cry into a blockbuster four-player attraction powered by high-precision D-BOX motion. Players are transported into three unpredictable worlds to battle the villain Vaas, utilizing dynamic steering and shooting as they compete for the top score in an unmatched immersive experience. The setup features a massive 5.3m cinematic LED wall and independent motion seats designed to maximize throughput while a smart "looped" flow encourages immediate repeat play for all ages. Equipped with DPVR E4 headsets and D-BOX G5 actuators, this card-system-ready VR experience provides a crowd-stopping presence that leverages the world-famous legacy of Ubisoft's AAA franchises.

## SPREE VR PLAYGROUND

Dimensions: 7200W x 8000D x 3000H MM

SPREE VR Playground is an award-winning multiplayer free-roam arena that utilizes the latest wireless VR headset technology to deliver high-energy, family-friendly entertainment. The system is designed for maximum throughput and minimal operational costs, making it the ultimate birthday party attraction for any family entertainment center. By removing the need for cumbersome backpacks or controllers, the all-in-one headsets significantly decrease turnover times and simplify maintenance for operators. The arena comes pre-loaded with ten exciting games and optional laser tag modes, providing a seamless, high-capacity VR experience that gets players into the action instantly.

## ALPHA VR STRIKE

Dimensions: 1870W x 2520D x 2800H MM

Alpha Ops squad places two players in high-intensity armored vehicle combat, utilizing Unreal Engine 5 to bring three visually stunning environments and a powerful final boss to life in exquisite detail. The military-inspired cabinet features a motion platform and a 4.1 surround sound system, immersing players in the action as they use unique VR aiming controllers to break through enemy pursuits. Designed for efficiency, this attendant-free and coin-operated attraction uses dual 86" 4K displays to showcase the mission to spectators while players engage with the immersive headset experience. With diverse stages ranging from an ice blizzard to a desert gorge, this high-performance machine combines advanced motion technology with top-tier graphics.

## ZOMBIE FRENZY

Dimensions: 1900W x 2600D x 2350H MM

This retro horror VR arcade transports players into a heart-pounding battle against zombie hordes across three challenging levels, designed to maximize immersion and repeat play. The space-efficient dual-player cabinet features a massive 65" screen and dynamic atmospheric lighting, acting as a powerful visual magnet to attract onlookers and drive revenue. Players experience authentic shooting action through realistic gun haptic feedback, whether competing in single-player mode or teaming up for a high-intensity multiplayer survival experience. Engineered for a fast ROI, this horror-themed attraction combines a small footprint with high-impact gameplay, making it the perfect professional solution for any modern entertainment venue.

## TERMINATOR II

Dimensions: 1900W x 2600D x 2350H MM

This immersive Terminator attraction plunges players into futuristic warfare against the machines across three exclusive levels, all showcased on a high-impact 65" screen. The space-efficient dual-player cabinet utilizes dynamic lighting and a massive display to attract onlookers, ensuring high foot traffic and a fast return on investment. Equipped with self-developed guns featuring realistic vibration feedback, the system offers an authentic combat experience in both solo and competitive multiplayer modes. Designed for high replay value and steady revenue, this iconic IP-driven machine combines a compact footprint with top-tier technology for any modern entertainment venue.

## SPONGEBOB SQUAREPANTS DUO

Dimensions: 2060W x 3610D x 3200H MM

Bring the world's most popular kid's show to your venue with this thrilling 2-player VR experience featuring a photo-worthy boat-mobile and a full motion platform. One player steers through Bikini Bottom by leaning while the other launches Krabby Patties via a turret, with roles that can be interchanged for maximum variety. The attendant-free system uses a massive 65" display, surround sound, and powerful wind effects to attract crowds while maintaining a small 80-square-foot footprint. Designed for high throughput and endless replayability, this asymmetrical multiplayer attraction leverages mainstream appeal to remain a consistent top earner for any venue.

## STORM VR SIMULATOR

Dimensions: 1600W x 2770D x 2920H MM

The Storm™ is a one-of-a-kind, operator-free VR experience from Triotech that features cutting-edge hand gesture technology, allowing two players to compete without the need for controllers. Equipped with four exclusive 4K interactive movies—Canyon Coaster, Reef Rider, Sugary Slope, and Creepy Castle—it combines a unique motion base with wind effects for a truly thrilling ride. A large overhead attract screen showcases the live gameplay to spectators, creating high visual impact across the room and driving constant engagement from new players. By blending immersive graphics with competitive scoring and a high-performance motion platform, this compact dual-seater ensures high replay value and a strong return on investment.

## VIRTUAL RABBIDS VR

Dimensions: 1520W x 3190D x 3460H MM

Virtual Rabbids: The Big Ride is a globally top-earning, unattended VR attraction that delivers immersive 360° views and synchronized D-Box motion for a thrilling experience across all ages. Featuring an audience-facing cabinet with an HD real-time view of player reactions, this high-revenue machine includes illuminated skis, snow clouds, and wind effects to maximize engagement. The system is equipped with secure, hygienic HTC Vive headsets and an integrated sanitizing kit, ensuring a safe and low-maintenance environment for busy family entertainment centers. With a massive expansion pack offering six diverse experiences from Alpine Adventure to Space Skirmish, it guarantees endless variety and high replay value in a professional, ergonomic design.

## HERO ZONE VR

Dimensions: 6000W x 6000D x 3000H MM

Hero Zone VR offers an immersive, wireless free-roam experience for up to six players in a compact 36-square-meter footprint, focusing on accessible team play and high replayability. The system utilizes high-end, lightweight VIVE Focus 3 headsets and a 55-inch spectator screen, allowing bystanders to join the excitement while players engage in competitive multiplayer sessions. Designed for high throughput and fast ROI, the platform features a fast-growing library of family-friendly games and a dedicated lobby where players can master controls before starting. This low-risk investment eliminates the need for heavy backpacks or expensive external PCs, delivering a streamlined 10-minute experience that maximizes revenue with minimal downtime.

## VR AGENT

Dimensions: 3280W x 2600D x 2350H MM

VR Agent is a striking, attendant-free arcade shooter that combines a highly immersive VR format with a motorized headset and gun assembly that automatically lowers for play. Players embark on four missions with increasing difficulty levels to defeat an enemy mastermind, featuring an air cannon that provides tactile jolts for a realistic combat experience. The cabinet includes massive 50" vertical displays to showcase the action to onlookers and offers a "Robot Mode" to switch enemies for a family-friendly gameplay environment. With easy-to-grasp mechanics and an instant "continue" feature, this linked two-player setup encourages competitive marksmanship and repeat play to maximize venue revenue.

## ZOMBIELAND FEVER

Dimensions: 1370W x 460D x 2130H MM

'Zombieland VR: Headshot Fever' is a high-speed light gun racing shooter where precision headshots slow the clock, allowing players to rack up combos and climb global leaderboards. The monolith cabinet features characters from the hit movie franchise and backlit graphics that act as a standout attraction, delivering up to 40 plays per hour. With ten levels of zombie-slaying mayhem, players use customized guns with mounted headsets designed for the fastest possible entry and exit to maximize venue revenue. This durable, low-maintenance hardware setup includes no moving parts and allows for easy decal updates, ensuring a long-lasting and adaptable investment for any game floor.

## SYNTH RIDERS

Dimensions: 1370W x 460D x 2130H MM

Synth Riders delivers a heart-pounding rhythm experience where players hit, glide, and dodge through high-energy dance tracks in an eye-popping, immersive virtual environment. The monolith cabinet features pulsing backlit graphics that sync to the music to attract crowds, while its durable design with no moving parts ensures easy maintenance and updates. With a diverse library of 20 hot tracks across genres like rock, pop, and metal, the game offers adrenaline-fueled fun that captivates players of all ages and skill levels. Designed for high repeat appeal, this sleek attraction provides continuous content updates and customizable decals, making it a stylish and reliable top earner for any modern venue.

## TRANSFORMERS VR BATTLE ARENA

Dimensions: 3660W x 3660D x 2750H MM

Transformers VR Battle Arena delivers an epic 4-player PvP experience where fans battle as iconic characters like Bumblebee and Optimus Prime across three immersive, large-scale environments. Players can engage in intense competitive combat or team up in a cooperative "Invasion" mode to defeat Megatron, utilizing high-quality Striker Arena guns with realistic haptic recoil. The attraction features a massive 110" video marquee that showcases live gameplay and leaderboards, serving as a powerful anchor piece that attracts all ages with its world-famous IP. With hundreds of game combinations and annual arena upgrades, this high-throughput VR system ensures long-term repeat playability and a dominant presence on any entertainment floor.

## CHAOS JUMP

Dimensions: 3650W x 3650D x 2740H MM

This thrilling 4-player party game sends adventurers on an epic quest through 18 exotic worlds to battle robot armies and recover hidden treasures and gold. The system features a massive 495 unique game combinations with randomized levels in every session, ensuring high repeat playability and fresh challenges for the whole family. Designed for high-traffic venues, the cabinet includes a user-friendly touchscreen interface for single-operator ease and a dedicated spectator mode with competitive leaderboards. With its small physical footprint and high throughput, this family-friendly VR attraction is engineered for rapid ROI and remains a consistent top earner for modern arcades.

The background features several large, solid blue circular shapes. A large arc is in the top-left corner. A small circle is partially visible in the top-right. A medium-sized circle is in the lower-left. A large arc is in the bottom-right corner. The text is centered in the upper half of the image.

# **REDEMPTION MACHINES**

## HIGH FIVE TICKETS

Dimensions: 1240W x 1150D x 2490H MM

High Five Tickets redefines the ticket crane category with a groundbreaking five-claw mechanism and a single-joystick control that lets players grab multiple RFID-enabled balls in one thrilling attempt. Captured balls are instantly scanned to calculate ticket values, featuring four reward tiers and a massive 10x bonus multiplier for maximum excitement and guaranteed wins on every play. The cabinet stands out on any floor with its neon beach-party theme and vibrant edge lighting, while an automated ball-return system ensures continuous gameplay and low maintenance for operators. Designed for high replay appeal and long-term engagement, this unique attraction provides a premium, high-earning player experience.

## SMURFS GOAL SOCCER

Dimensions: 2450W x 750D x 2030H MM

The Smurfs Goal Champs brings the beloved blue characters to life in an interactive, officially licensed ticket-winning adventure where players score goals to activate exciting bonus rounds. Featuring the unique Soccer Bonus and Big Kick Bonus, the game rewards successful scores with tickets while layered challenges and approachable gameplay encourage high engagement for all ages. The cabinet stands out with bright LED lighting and a playful theme, utilizing an intuitive soccer-style joystick to give players precise control over their shots on the digital goal. Designed for both comfort and performance, the unit includes a built-in seat to support longer play sessions, ensuring steady revenue and high replay value for any family entertainment center.

## DIPPIN DOTS DROP

Dimensions: 1450W x 1450D x 2640H MM

Dippin' Dots Drop brings the nostalgia of the iconic frozen treat to the redemption floor with a high-visibility, three-player island cabinet designed to attract massive crowds. Players compete to catch 50 colorful falling dots to climb the score ladder, with a perfect game unlocking an exciting progressive bonus for maximum ticket rewards. The bright, open cabinet design features the world-famous licensed branding, making it an instant standout piece that draws families and competitive players alike. Perfect for high-traffic venues, this fast-paced redemption attraction leverages a proven brand to deliver high engagement, steady revenue, and significant repeat play value.

## NAILED IT

Dimensions: 1220W x 1220D x 2540H MM

Nailed It! brings the high-energy spirit of an Oktoberfest hammer-striking challenge to your venue, turning every hit into a fast-paced, winner-takes-all showdown for up to four players. Using oversized foam hammers, participants must aim for perfect timing and precision to outpace their friends in a social, head-to-head competition that is both easy to learn and highly addictive. The cabinet features engaging lights and immersive sound effects designed to create a lively atmosphere, acting as a powerful crowd magnet that draws spectators and players alike. With its focus on skill-based rewards and accessible gameplay, this competitive attraction is engineered to drive repeat play and foster a fun, interactive experience on any arcade floor.

## PERFECT PUMP

Dimensions: 800W x 910D x 2590H MM

Perfect Pump turns the familiar gas station task into a high-stakes arcade thrill where players use a realistic handle to match a target sale amount for a chance at a major bonus. With Standard, Mid-Grade, and Premium options, players can customize their payout level and difficulty, creating an intuitive yet challenging experience that encourages constant repeat play. The cabinet's compact 31-inch width is specifically engineered for efficient end-cap placement, allowing venues to maximize their earning potential in even the smallest available spaces. Designed for high visibility and quick-to-learn gameplay, this unique redemption attraction offers an addictive, family-friendly challenge that ensures a steady flow of revenue and a fast ROI.

## VORTEX

Dimensions: 800W x 910D x 2590H MM

VORTEX delivers a high-energy redemption experience where players pull and release a physical launch lever to send a ball soaring into a dynamic, multi-valued scoring playfield. Landing the ball in high-value holes rewards players with tickets, utilizing simple and intuitive mechanics that appeal to all ages and drive consistent repeat play. The cabinet features bright visuals and captivating effects to instantly draw crowds, while its space-efficient layout is designed to maximize revenue potential on any floor. With fully adjustable reward settings to match your venue's specific earning strategy, this durable attraction offers a perfect blend of skill-based fun and high-throughput performance.

## CRAZY HAMMER

Dimensions: 1850W x 1350D x 2600H MM

Crazy Hammer Hitting blends real physical impact with digital gameplay, allowing players to use a weighted hammer to smash on-screen monsters and demolish statues in high-energy, timed challenges. The experience offers both cathartic solo play and competitive head-to-head duels, utilizing intuitive controls that make it accessible and stress-relieving for players of all ages and skill levels. Venues can customize reward strategies to offer traditional tickets or physical prizes like sodas, while progressive difficulty levels ensure the gameplay remains fresh and encourages constant repeat play. This addictive, high-impact attraction is designed to maximize revenue potential by combining a unique tactile experience with the excitement of digital rewards.

## SOCCER STARS

Dimensions: 1520W x 5280D x 2840H MM

This fast-paced, skill-based arcade game challenges players to test their precision, timing, and power by kicking for center-target accuracy to rack up high scores. With three kicks per session, the gameplay perfectly balances strategy and skill, allowing players to compete head-to-head for social fun and top spots on the leaderboard. The cabinet features a vibrant, eye-catching design with integrated lights that draw onlookers, while a "Beat the Bonus" feature rewards top performers with extra ticket payouts. Engineered for high engagement and repeat play, this competitive sports attraction creates a lively atmosphere and ensures a steady revenue stream for any family entertainment center.

## ON TARGET 2P

Dimensions: 1400W x 3080D x 2260H MM

SEGA Amusements International delivers a modern shooting gallery experience featuring gritty artwork, striking LED edge lighting, and force-feedback compressor guns with working scopes. Two players compete head-to-head against randomly popping targets to score maximum tickets, utilizing drop-in/drop-out mechanics that allow new players to join the action at any time. The cabinet operates in both redemption and play-for-fun modes, using its immersive tactile feedback and unpredictable rounds to ensure high engagement and constant repeat play. Designed with a small physical footprint and high income potential, this skill-based attraction provides operators with a durable, high-visibility solution for any entertainment venue floor.

## MINI WORLD LASER SHOOTING

Dimensions: 1780W x 2350D x 2850H MM

Mini World Laser Shooting introduces industry-first "Point & Dominate" targeting with real-time cursor tracking, delivering a high-tech arcade experience for up to four players in competitive multiplayer. The system features immersive 5D full-motion gameplay enhanced by an aerodynamic wind system and external motion seats that react to the action across six diverse adventure maps and power-up sequences. Players engage with a massive 65-inch HD screen and surround sound, using precision motion light-guns to navigate varied challenges that provide full sensory immersion and an unforgettable arcade adventure.

## FRANKEN SLAM

Dimensions: 2160W x 2630D x 2030H MM

Franken Slam! delivers a spooky twist on the classic ball toss as players aim to knock down seven durable 3D Frankenstein heads before the timer runs out. The interactive targets feature RGB LED lighting that cycles through blue, green, and orange to indicate changing point values, rewarding players who hit the highest-scoring heads. With vibrant Halloween-themed artwork, immersive sound effects, and intuitive toss gameplay, this attraction is a family-friendly standout that supports both physical and eTicket redemption. The cabinet features dedicated LED counters for time and score tracking, while its versatile coin or card-swipe compatibility makes it an easy, high-earning addition to any arcade floor.

## PUTT IT! PAR-TEE

Dimensions: 1600W x 3300D x 2580H MM

Putt It Par-Tee merges mini-golf precision with alley roller excitement, inviting players to putt balls into seven scoring holes to rack up points and win tickets across vibrant, themed levels. Up to six players can compete by linking three two-player cabinets, featuring quirky characters like Zorq the Alien and a "Double Points Final Shot" for a thrilling, high-stakes finish. The eye-catching, cartoon-style cabinet utilizes dynamic lighting and individual character displays, while a top-mounted billboard allows spectators to follow the action and cheer along. With automatic ball dispensing and fast-paced, family-friendly mechanics, this highly replayable social attraction ensures continuous gameplay and serves as a standout revenue generator for any arcade.

## SIMON ARCADE

Dimensions: 1000W x 2400D x 2800H MM

SEGA Amusements International and Hasbro bring the iconic SIMON memory game to life as a high-energy ball-toss challenge where players hit colored targets to test memory, timing, and precision. By landing five consecutive correct targets, players earn extra points and unlock the Super Bonus round, requiring them to memorize and repeat flashing light sequences for the ultimate ticket rewards. The cabinet features officially licensed branding, vibrant edge lighting, and animated graphics that guide players through each round, creating a high-visibility attraction that stands out on any floor. With its intuitive, fast-paced mechanics and addictive skill-based gameplay, this family-friendly redemption piece ensures high replay value.

## SPIN CITY

Dimensions: 2400W x 1000D x 2800H MM

Spin City Twin combines motion, skill, and speed in a high-energy racing adventure where players roll giant glowing balls to navigate city courses and use foot pedals to activate turbo boosts. The futuristic cabinet features dual 49" HD screens that display stunning visuals and live leaderboards, allowing two players to compete head-to-head for top rankings and ticket rewards. Vibrant RGB lighting and an eye-catching design draw crowds from across the floor, while intuitive controls make the fast-paced, skill-based gameplay accessible and addictive for all ages. With adjustable ticket settings and a durable, easy-to-maintain setup, this competitive attraction provides high replay value and maximizes revenue potential for any entertainment center.

## MEERKAT MADNESS

Dimensions: 1150W x 2980D x 2520H MM

Meerkat Madness is a fast-paced ring toss game where players aim to land rings on seven different meerkats to score points and climb the ticket ladder. Successfully ringing all seven meerkats triggers an exciting bonus round, rewarding precision and skill with a massive ticket payout that keeps players engaged. The eye-catching cabinet features a compact footprint and vibrant visuals designed to draw attention while fitting easily into any arcade or family entertainment center space. With simple, intuitive mechanics and high replay value, this family-friendly attraction appeals to players of all ages and ensures a steady stream of revenue for operators.

## HOT WHEELS SPEEDWAY

Dimensions: 990W x 2590D x 3500H MM

Hot Wheels: Ultimate Speedway combines the iconic racing brand with air-powered shuffleboard mechanics, inviting players to launch branded pucks across a smooth playfield toward moving LED targets. As players score, a giant 11.5-foot dot-matrix display animates their car racing toward the bonus, while an innovative puck-return system keeps the high-speed competition flowing without interruption. The cabinet's massive height and vibrant Hot Wheels theme create a bold presence, while the ability to link multiple units allows for intense head-to-head races and community leaderboards. With adjustable scoring thresholds and a unique fusion of speed and precision, this high-visibility attraction provides significant replay value.

## GRAND PIANO KEYS

Dimensions: 1680W x 1850D x 2820H MM

Grand Piano Keys combines stunning visuals with addictive, music-based mechanics where players tap oversized, illuminated keys to match colored squares on a vibrant 60" screen. The game features a flexible one-player solo mode or a two-player duet mode for competitive fun, allowing participants to play along to well-known songs while winning tickets. With its eye-catching cabinet and striking marquee, the attraction is designed to draw crowds and accommodate all skill levels through intuitive, player-paced gameplay. This high-visibility redemption piece rewards speed and accuracy, providing a family-friendly experience that encourages repeat play and maximizes revenue on any arcade floor.

## ICEE SLUSH RUSH

Dimensions: 2060W x 920D x 2740H MM

ICEE Slush Rush combines the global appeal of the beloved frozen brand with a high-speed multiplayer challenge where players race to serve 50 thirsty customers. Players must navigate five different flavors with precision, as overfilling cups or causing spills results in time penalties and requires a cleanup delay. The vibrant, branded cabinet creates a high-visibility centerpiece for any room, rewarding accuracy and speed with a massive ticket bonus for completing the full order. With its unique blend of strategy and skill-based gameplay, this family-friendly attraction drives significant repeat play and high revenue for modern entertainment centers.

## TUNDRA TOSS QUICK FIRE

Dimensions: 12000W x 3430D x 3160H MM

Quick Fire is the compact, sports-wall-friendly version of Tundra Toss that brings the excitement of a high-stakes football challenge to players of all skill levels. In this timed game of skill, players use real footballs to hit changing targets, aiming for blue or green glowing rings to earn double points while vibrant LEDs illuminate the action. The cabinet supports competitive two-player sessions where participants take turns tossing whenever their assigned color flashes on the targets, accompanied by immersive digital music and sounds. Designed with a smaller footprint for maximum venue flexibility, this high-energy attraction uses authentic football mechanics and skill-based rewards to drive consistent repeat play and revenue.

## GOATZ N ROPES

Dimensions: 1070W x 1460D x 2860H MM

Goat Mountain is a fast-paced single-player adventure where players join Sven and Lars on a mission to race up the mountain by pulling an infinity-looped rope to climb. The gameplay requires quick reflexes as players use jump buttons to navigate across three on-screen ropes, dodging treacherous rock cliffs and obstacles while racing against the clock. Upon reaching the summit, players must face off against the Yeti and dodge incoming snowballs to secure the big bonus and collect tickets earned throughout the ascent. With its eye-catching cabinet and intuitive physical mechanics, this unique climbing challenge offers an engaging, high-energy experience that encourages repeat play to achieve record times.

## HOTSHOT FREE THROW FURY

Dimensions: 1520W x 4140D x 4090H MM

Hotshot elevates arcade basketball into a massive centerpiece attraction, featuring a 13-foot-tall flame-themed cabinet, a regulation-size rim, and a professional-length free-throw distance. This re-themed "Free Throw Fury" model boasts a sharp new graphic package, simplified single-cable linking for competitive banks, and enhanced LED lighting across the backboard and console. Players race against the shot clock to nail as many baskets as possible, while new operator-friendly features like updated electronics, easier service access, and integrated cup holders streamline the experience. Designed to foster competitive spirit, the game can be paired with a new divider table accessory for guest belongings, creating a high-visibility, professional-grade basketball zone that maximizes revenue.

## TICKET MONSTER

Dimensions: 860W x 2520D x 2980H MM

Monster Tongue brings heart-pounding excitement to the floor as players pull a physical handle to spin the monster's massive tongue and win tickets based on where it stops. The thrill is amplified by a progressive Monster Jackpot that grows in value with every play, creating a sense of anticipation that keeps crowds engaged and drives constant repeat play. The cabinet features vibrant graphics and an optional LED kit to draw attention from across the room, supported by immersive music and dual ticket dispensers for high-volume operation. With its high revenue potential and simple yet addictive mechanics, this eye-catching attraction is a profitable addition designed to maximize earnings and player excitement in any entertainment center.

## SKEE-BALL GLOW

Dimensions: 760W x 3120D x 2340H MM

Skee-Ball "Glow" revives the glitz and glamour of the early 1900s boardwalk with an elaborate lighting package designed to make this classic alley bowler stand out in low-lit environments. Brimming with a vintage aesthetic, the "Glow" edition combines historical charm with modern visual appeal, ensuring it captures the attention of players even among other bright attractions. As a consistent top-performer in family entertainment centers, this model is a foundational must-have that works best when installed in banks of four to encourage social competition. By blending high-visibility LED effects with the timeless gameplay of the original Skee-Ball, this unit maximizes player engagement and provides a reliable, high-earning anchor for any arcade floor.

## CONNECT 4 HOOPS

Dimensions: 1880W x 3810D x 3510H MM

Connect 4 Hoops combines strategy and athleticism as players shoot baskets to align four balls on an LED-projected grid, blending classic gameplay with an augmented reality playfield. The cabinet supports intense head-to-head battles or 2v2 showdowns, featuring dynamic lighting and graphics that react to every shot for a fully immersive, high-energy experience. With its energizing soundtrack and intuitive mechanics, this attraction is easy for all ages to learn while providing a deep, competitive challenge that keeps players coming back for more. The game is also available in a compact version featuring a 65" HD screen and smaller 7" basketballs, making it a versatile revenue generator for venues of any size.

## ROCK THE RIM

Dimensions: 880W x 3050D x 2740H MM

Rock the Rim delivers a larger-than-life basketball experience featuring a custom LED-lit rim mounted over a 55" monitor that hosts three unique modes: Leaderboard Challenge, H.O.R.S.E., and a 3-Point Shootout. The cabinet stands out in any game room with LED-lit speakers and an eye-catching marquee, while web-enabled connectivity allows players to compete on a live global leaderboard with personalized names and photos. Multiple units can be linked for intense head-to-head competition, allowing friends to battle locally or challenge the best players worldwide for top rankings and ticket rewards. With its blend of high-definition visuals and classic arcade athleticism, this connected sports attraction drives significant engagement.

## POP THE LOCK

Dimensions: 1130W x 1130D x 2460H MM

Pop the Lock is a high-speed game of skill where players race to hit randomly appearing yellow dots around the playfield's circumference to sharpen their reflexes and concentration. Skilled players who hit all 50 dots in the sequence "Pop the Lock" to win the Bonus, while a convenient continue feature allows them to pick up exactly where they left off. The cabinet's vibrant lights and engaging sounds create a strong visual attraction, while its compact design allows operators to fit multiple units into a space to optimize revenue. With its user-friendly setup and addictive, easy-to-learn mechanics, this redemption piece encourages repeat visits and provides a hassle-free, high-earning solution for any arcade layout.

## QUICK DROP

Dimensions: 980W x 1090D x 2740H MM

Quik Drop delivers high-energy, single-button action where players race against the clock to drop 50 balls into rotating buckets for a chance at the big bonus. Developed by the creators of Big Bass Wheel, this addictive game features an attention-grabbing cabinet and intuitive mechanics that appeal to players of all skill levels. Operators can easily adjust payout settings to ensure compliance and profitability, while the option to link two units with a center column creates a high-earning duo. The fast-paced gameplay and vibrant design make this a standout redemption piece, driving consistent repeat play and maximizing revenue potential for any modern arcade floor.

## ON TARGET

Dimensions: 2400W x 3200D x 2400H MM

On Target is a high-energy, four-player shooting gallery where participants aim to knock down randomly appearing targets within a set time limit to earn the highest score and win tickets. The experience is anchored by force feedback compressor guns featuring functioning scopes and realistic recoil, providing a tactile and immersive 5D feel that mimics a professional range. The cabinet serves as a prominent arcade centerpiece with vibrant LED edge lighting and a dynamic join-in-progress feature, allowing up to four players to jump into the action at any time. This skill-based attraction can be operated for ticket redemption or play-for-fun mode, offering high replay value through its unpredictable target patterns and competitive multiplayer mechanics.

## ZOMBIES READY DEADY

Dimensions: 2090W x 2020D x 2470H MM

Zombie Roller is a fast-paced, four-player midway-style race where players roll balls to propel their chosen hilarious zombie—Bubbles, Coco, Dizzy, or Smudge—toward the finish line. The game features a stunning 65" screen and a fully lit cabinet that immerses participants in the action with animated super bonus targets and a unique six-channel audio system. With live race commentary and humorous gameplay, this compact modular unit provides a competitive, skill-based experience that is easy to install and maintain in any venue size. Operators can fully customize race times and ticket payouts, ensuring this high-energy attraction attracts players of all skill levels and drives consistent revenue through repeat play.

## BIG SEA FISHING

Dimensions: 2210W x 2300D x 2680H MM

Go Catch is a skill-based fishing redemption game where four players compete to angle their hooks and catch the largest fish to secure the highest point totals and ticket rewards. The sea-themed cabinet features two exciting locations—Standard Ocean and Enchanted Sea—offering a force-feedback reeling sensation that provides a tactile and immersive fishing experience. An ever-changing environment with ramping bonuses and multiple power-ups ensures that no two games are the same, keeping players of all ages engaged and coming back for more. Designed as a prominent four-player centerpiece, this attraction can be operated for ticket redemption or play-for-fun, offering a dynamic and competitive experience that maximizes venue revenue.

## ALLSTARS ULTIMATE DISC

Dimensions: 1020W x 2710D x 3030H MM

Allstars Ultimate Disc brings high-energy competition to any venue as players throw discs into six distinct targets across three fast-paced levels to earn points and win ticket bonuses. The stunning, fully lit cabinet features a synchronized lighting system that immerses players in the action, while a built-in conveyor belt returns discs for nonstop gameplay. Designed for all ages, this skill-based redemption game can be linked with up to eight units, creating a massive competitive footprint that drives social interaction and repeat play. With its eye-catching aesthetic and intuitive physical mechanics, this versatile attraction is a perfect fit for family entertainment centers, arcades, and bowling alleys looking to maximize revenue.

## ALLSTARS BASKETBALL

Dimensions: 1030W x 2420D x 2570H MM

Allstars Basketball puts a unique twist on the classic sports genre by featuring an impressive 65" vertical screen with colorful animations and transparent sides for a modern, sleek aesthetic. The single-player mode offers four distinct game levels with three difficulty settings, while the multiplayer mode allows participants to compete in a "best of three" from six unique challenges. A built-in player camera and statistical performance analysis evaluate shooting skills after every round, providing high-tech feedback that encourages players to improve and play again. With the ability to link up to 16 cabinets for massive competitive banks, this high-energy redemption game uses bold colors and edge lighting to serve as a premier attraction for any venue.

## SLAM N JAM ULTRA

Dimensions: 1000W x 2650D x 2630H MM

Slam' n' Jam Ultra delivers an immersive street basketball experience featuring a 32-inch HD TV backboard that displays real-time scores, timers, and performance stats to keep the competitive spirit high. The cabinet stands out as a striking arcade centerpiece with its sleek modern design, glowing LED effects, a durable steel net, and a heavy-duty acrylic ball gate for a clear view of every shot. Players are motivated by cool soundtracks and play-by-play commentary that simulate a real court atmosphere, while exciting audio-visual feedback enhances the overall action-packed gameplay. Designed for ultimate social competition, up to eight units can be linked for massive head-to-head showdowns, making it a high-energy attraction that encourages repeat play.

## HYPERSHOOT

Dimensions: 1090W x 3100D x 2880H MM

HyperShoot delivers a high-impact basketball experience featuring an interactive light tunnel that tracks every shot like a comet trail, creating a spectacular visual effect that draws crowds from across the room. The gameplay is elevated by real-time sports commentary and explosive sound effects, rewarding players with extra points for quick-succession scoring to drive intense competition and repeat play. Available in eight vibrant colors, this versatile unit fits perfectly alongside classic midway games and can be enhanced with an optional deluxe marquee or side skirts for a premium look. Operators can link up to eight units for massive competitive banks with optional "Bonus Tickets".

## RING TOSS

Dimensions: 990W x 2590D x 2380H MM

Ring Toss brings the classic carnival midway experience to the arcade as players are challenged to toss rings around a playfield of bottles within a set time limit. The game features bottles lit with vibrant RGB LEDs for an impressive glow and a 32" high-resolution video screen that tracks scores and gameplay in real time. Skilled players can aim for a major bonus of 1,000 tickets, while operators can link multiple units with a progressive sign to drive even higher excitement and revenue. With its family-friendly appeal and intuitive skill-based mechanics, this colorful redemption attraction serves as a high-earning centerpiece that encourages social competition and repeat play.

## DISCO BALL DROP

Dimensions: 1090W x 1620D x 3000H MM

Disco Ball Drop is an exciting, fast-paced attraction that challenges players to catch falling balls and quickly deposit them into a scoring hole to win tickets or points. This high-energy game pushes players to test their speed and agility, creating a vibrant atmosphere that enhances the overall ambiance of any entertainment space. Designed with a small footprint and high income potential, this unit is specifically suited for adult audiences in arcades, family entertainment centers, and social clubs. Its intuitive yet physically demanding gameplay creates an addictive loop that encourages repeat play, making it a powerful revenue generator for venues with limited floor space.

## RUSH AND CATCH

Dimensions: 2200W x 1890D x 2400H MM

Rush and Catch is a dynamic animal racing game featuring a unique dual rocking seat structure that mimics jumping and realistic movement to immerse players of all ages in the action. Players use a 43" HD screen to navigate three vibrant racing environments, skillfully pressing a button to jump between various animals like zebras and tigers to utilize their unique abilities. The strategic gameplay challenges participants to select the best racer for different landscapes and obstacles, providing a fresh and exciting experience with every competitive heat. With its eye-catching design and engaging physical mechanics, this animal-themed attraction serves as a high-energy standout for any venue looking to drive repeat play and family fun.

## ACE SHOOTER PRO

Dimensions: 1390W x 1950D x 2560H MM

Ace Shooter (Pro) is a dynamic two-player shooting game that utilizes new sniper rifles featuring vibrating effects and realistic recoil to immerse players in high-stakes action. The cabinet boasts a massive 75" HD screen displaying nine diverse scenarios designed to test accuracy and reaction times, making it a powerful visual draw for any arcade. A unique scope sniping feature, activated by a physical button on the gun, adds a layer of depth and skill that appeals to both casual kids and competitive adult gamers. With its cutting-edge technology and intense gameplay, this latest entry in the Bullseye Crack Shot series is a high-earning attraction suitable for family entertainment centers.

## BULLSEYE CRACK SHOT

Dimensions: 1320W x 1890D x 2550H MM

Bullseye Crack Shot delivers an immersive secret agent-themed experience where two players use high-end, force-feedback guns with precision sights to battle through vivid 3D environments. The massive 75" 4K screen showcases fast-paced game modes like hostage rescue, competitive PK, and range training, providing a realistic and shocking visual experience for a wide audience. Players must strategically eliminate enemies while managing their own health points, enjoying tactile effects and sensitive induction that create a premium, high-stakes shooting gallery atmosphere. Built with durable, high-quality craftsmanship, this popular attraction converts final scores into tickets and offers a "continue" feature via coin or card, ensuring consistent revenue.

## SKULL OF SHADOW

Dimensions: 1620W x 2060D x 2600H MM

Skull of Shadow is an innovative three-player shooting game that plunges guests into a swashbuckling pirate battle featuring treasure chests, ocean vistas, and ghostly adversaries. The adventure unfolds on a 65" HD screen showcasing eight unique retro scenarios, ensuring high replay value and new challenges for every seafaring session. Players use intuitive shooting mechanisms to interact with the beautifully themed environment, earning points for every pirate defeated to win tangible ticket rewards. With its compelling digital effects and tactile gameplay, this three-player attraction serves as a stunning centerpiece that transports players of all ages into a legendary pirate tale.

## HERO OF STEEL II

Dimensions: 1070W x 2540D x 2280H MM

This exhilarating two-player water shooting game combines heroic action with strategic precision, challenging participants to complete high-stakes missions within a captivating aquatic environment. The striking cabinet design features vibrant visuals and immersive aesthetics that immediately grab attention, creating a high-energy focal point for any modern arcade or family entertainment center. With intuitive controls and a welcoming atmosphere, players of all ages can dive into interactive gameplay that rewards accuracy and quick thinking as they work to defeat opponents. This attraction blends physical water effects with digital excitement to deliver a unique, multisensory experience that drives consistent engagement.

## SUPERWINGS SKYROCKET

Dimensions: 1260W x 1680D x 2200H MM

Super Wings Sky Rocket is an official two-player redemption game that invites kids to soar through the enchanting world of the hit TV show alongside their favorite airplane characters. Players choose from four unique planes to navigate four fun-filled stages, using authentic airplane-style steering controllers that deliver a realistic and immersive flying sensation. The gameplay rewards strategic maneuvers as pilots collect points and power-ups to maximize their ticket winnings while enjoying high-definition graphics that bring the show to life. With its captivating cabinet design and intuitive mechanics, this licensed attraction provides a magical experience for young aviators and serves as a reliable revenue generator for any venue.

## LEGENDS OF SPARK

Dimensions: 2080W x 1850D x 2210H MM

Legends of Spark is an official two-player ticket redemption racer that brings the high-speed thrills of the popular children's TV show to life through a captivating cabinet adorned with HD graphics. Players can race as their favorite characters across seven dynamic levels specifically designed to challenge all age groups and skill levels, ensuring a fun and inclusive experience for everyone. The intuitive, easy-to-master gameplay allows participants to focus on the exhilaration of the track as they navigate obstacles and strategically collect points to win big tickets. With its vibrant licensed theme and high-energy racing journey, this attraction serves as a powerful visual draw that encourages social competition and repeat play in any entertainment venue.

## NITRO SPEED

Dimensions: 2300W x 1990D x 2670H MM

Nitro Speed delivers a high-octane, four-player racing experience that brings friends and families together through intuitive controls and brilliant HD graphics that make every track come to life. The game offers versatile hardware configurations, allowing operators to choose between an upright stand cabinet or immersive light-up RGB seats to perfectly match their venue's unique atmosphere. Players can select from four distinct cars and three challenging tracks, ensuring fresh and engaging competition for kids, teenagers, and parents alike as they rev their engines for the top spot. With its dynamic gameplay and proven ability to attract a wide audience, this vibrant racing hub serves as a high-earning centerpiece that drives consistent revenue and repeat play.

## AIR SLIDE

Dimensions: 760W x 1420D x 2700H MM

Bop It! Battle is an intuitive, skill-based redemption game that brings the iconic toy to life as up to four players compete to perform rapid-fire physical actions based on voice and visual prompts. The gameplay tests hand-eye coordination by becoming progressively more challenging, awarding tickets for every correct move and keeping all participants engaged until the final tally. The winner earns a high-stakes opportunity to play the electrifying Lightning Round, where beating the machine unlocks a massive big-ticket bonus and ultimate bragging rights. Ideal for players of all ages, this high-energy cabinet features a convenient ticket dispensing system and can be operated in single-player or multiplayer modes for maximum venue flexibility.

## GODZILLA VS KONG SMASHER

Dimensions: 1650W x 960D x 2770H MM

Godzilla vs. Kong Smasher is a fully licensed, two-player whack-a-monster experience where participants take on the roles of the legendary titans to battle endless waves of creatures. The hybrid gameplay features a unique mix of horizontal and vertical targets, combining physical smashing with light elements and lifelike 3D models of Godzilla and Kong. Players progress through multiple electrifying stages to deplete the enemy's health bar, all showcased within a stunning 3D world with jaw-dropping visual and sound effects. The cabinet serves as a massive visual draw, featuring an attractive 3D wrap-around LED billboard marquee that captures the blockbuster scale of the iconic sci-fi movie franchise.

## LANE MASTER

Dimensions: 1600W x 3000D x 2900H MM

Allstars Lane is an innovative video bowling concept that blends the physical fun of a traditional alley roller with the versatility of high-definition digital gameplay. Advanced sensors detect the speed, angle, and spin of every real ball roll, translating those physics onto the screen for an experience that rewards accuracy and finesse. Sold as a dual-lane unit with a striking marquee, the game supports single or head-to-head play to maximize engagement and drive higher earnings in any venue. Operators can link up to three units to create a custom six-alley mini bowling center, providing a massive competitive attraction that appeals to players of all skill levels.

## ZOMBIE INVADERS

Dimensions: 2150W x 1850D x 3090H MM

Zombie Invaders is a fast-paced two-player stomper game where players use physical floor pads to freeze waves of zombies across two massive 65" LED monitors. The high-impact gameplay challenges participants to clear multiple levels and defeat a powerful boss, racking up tickets through precise movement and timing. With its bright, fully lit cabinet and immersive visuals, this high-energy attraction serves as a dramatic showpiece that draws crowds and drives heavy foot traffic. Ideal for family entertainment centers and arcades, the quick and physical nature of the game encourages social competition and repeat play for maximum venue revenue.

## CRAZY CLOWN

Dimensions: 1220W x 2450D x 2500H MM

Clown Around brings the classic midway to life with a striped canopy, custom clowns, and a cheeky carnie voice that heckles and encourages players with every toss. The cabinet features mechanical arms that automatically reset fallen clowns for nonstop action, while vibrant illumination and an optional jumbo marquee attract crowds from across the floor. Players can enjoy solo high-score challenges or engage in thrilling side-by-side competition, making it a versatile centerpiece for both casual and competitive arcade environments. With its nostalgic aesthetic and fast-paced physical gameplay, this high-energy attraction captures the spirit of the carnival to drive consistent engagement and repeat revenue.

## WICKED TUNA

Dimensions: 2620W x 1800D x 3380H MM

Wicked Tuna delivers an immersive deep-sea adventure based on the hit reality series, featuring realistic rod and reel controllers that provide authentic force-feedback for every cast and catch. The massive 85" screen showcases heart-pounding fishing expeditions where up to four players can compete in single or multiplayer match modes to climb the leaderboard rankings. Players feel the adrenaline rush of a true professional expedition as they reel in massive catches, using precision lever action to simulate the physical struggle of a championship haul. With its high-impact visuals and tactile gameplay, this premium four-player attraction serves as a powerful revenue driver that captures the excitement of the blockbuster TV franchise.

## TREASURE COVE

Dimensions: 1270W x 2030D x 2890H MM

Treasure Cove is an immersive two-player video fishing game featuring a massive 75" LED monitor that brings the vibrant underwater world to life with stunning graphics and detailed animations. Players assume the role of skilled anglers using realistic reel tension mechanisms to hook various treasures, requiring precise skill, timing, and technique to earn tickets. The gameplay offers deep engagement as participants collect four maps to unlock an exclusive bonus stage or hunt for the elusive Lobster King to win a massive ticket jackpot. Designed for all ages, this high-impact cabinet combines physical feedback with a compelling "high seas" theme, making it a visually striking and high-earning addition to any arcade.

## DEMOLITION KING

Dimensions: 2200W x 2100D x 2580H MM

Demolition King is an interactive ticket redemption game where one or two players swing a physical wrecking ball to unleash controlled chaos on scrolling buildings. The unique cabinet design mirrors a demolished building, creating an eye-catching focal point that invites players to aim for fuel tanks and explosive bonuses. Participants must strategically master their swings to collect tickets while avoiding workers, with a rare golden ticket offering a chance at the ultimate bonus. Featuring charming graphics and a high-energy environment, this captivating attraction blends physical momentum with digital rewards to drive intense competition and repeat play.

## THE SMURFS COIN PUSHER

Dimensions: 1740W x 1060D x 2350H MM

The Smurfs Coin Pusher invites players to join Papa Smurf and the gang on a vibrant fortune quest, combining classic mechanical action with a high-definition 27" digital display for interactive gameplay. This officially branded attraction features an engaging collectible element where players work to gather all the "Smurfurines" surprises packed inside physical capsules dispensed from the machine. To ensure venue reliability and prevent fraud, the game utilizes premium collector cards equipped with advanced RFID technology for greater security during redemption and trading. With its beloved IP, immersive digital features, and rewarding collectible loop, this coin pusher serves as a high-traffic centerpiece that encourages long-term engagement.

## ZAP ATTACK

Dimensions: 880W x 2590D x 2050H MM

Zap Attack is an intergalactic shooting adventure where players defend their space station from alien invaders using the powerful "Zapper 9000," a compressed-air cannon that blasts physical balls at popup targets. The advanced 2-axis swivel mount, dual triggers, and integrated laser sights provide unparalleled precision as players navigate through increasingly difficult stages set against a dazzling, starry 3D backdrop. The cabinet is built for safety and comfort, featuring shatter-proof shielding and ergonomic seating, ensuring a premium experience for pilots of all ages during their high-stakes mission in deep space. Equipped with modern payment systems including card swipe and DBA, this interactive masterpiece drives consistent engagement and revenue.

## ANGRY BIRDS WHACKER

Dimensions: 1130W x 840D x 2160H MM

Angry Birds Whacker is a fast-paced, family-friendly redemption game that invites players to join forces with the world's most recognized game license to bash evil green pigs for tickets. The immersive cabinet features eye-catching artwork and fantastic sound effects that perfectly capture the essence of the beloved franchise, creating a vibrant focal point in any arcade. With its high-energy mallet-smashing action and intuitive mechanics, this "whackiest" game on the market provides an exhilarating experience that appeals to competitive players of all ages. Combining a massive global brand with classic physical gameplay, this attraction delivers a high-impact entertainment solution that encourages repeat play and drives consistent venue revenue.

## SKILL SHOOTER

Dimensions: 860W x 1930D x 2390H MM

Bullseye Crack Shot features a modern, sleek cabinet with brilliant LED lighting and a high-definition 50" display that immediately attracts players of all ages to the shooting action. The innovative gun controller utilizes industry-leading recoil technology to provide a realistic shooting experience, complemented by authentic target sound effects across multiple immersive stages. Players can test their reflexes and aiming skills through various exciting game modes, while operators enjoy full flexibility with adjustable settings to optimize the game for their venue. This high-energy attraction combines tactile physical feedback with fast-paced digital gameplay, creating a premium and engaging experience that drives consistent foot traffic and repeat play.

## AXE MASTER

Dimensions: 1630W x 4780D x 3440H MM

Axe Master is a 100% safe multiplayer attraction for FEC or gastro-gaming venues where players toss rubberized "real-feel" axes at physical targets to score high-value bullseyes. The cabinet features an automated conveyor belt that delivers axes to players at the start and clears them from the target at the end, ensuring seamless and uninterrupted gameplay. Designed for effortless upkeep and safety, the unit includes a defined play enclosure and a back cabinet on wheels for easy maneuvering during setup or maintenance. This beautifully designed centerpiece combines physical skill with a high-impact aesthetic, challenging guests to prove their accuracy and become the ultimate Axe Master while driving consistent venue revenue.

## BOXER KIDS CHALLENGE

Dimensions: N/A

The Boxer Kids Challenge is a specialized strength-testing machine designed to introduce children to the joy of physical achievement, allowing them to track their progress and set new personal records. This durable device features a high-visibility strength meter that celebrates every strike with a sense of victory, turning each attempt into a memorable opportunity to earn a new trophy. Drawing on extensive engineering expertise, the machine is built for seamless operation and long-term reliability, ensuring it remains a consistent and safe attraction in high-traffic environments. With its intuitive controls and focus on mental triumph, this engaging strength tester encourages kids of all ages to raise the bar and experience the thrill of friendly competition.

## SONIC ALLSTARS

Dimensions: 1030W x 2500D x 2640H MM

Sonic All Star Basketball delivers an electrifying arcade experience with a colorful Sonic rebrand, featuring high-impact LED lighting and a moving hoop that adds a dynamic layer of skill to every shot. The game includes adjustable difficulty settings to cater to all skill levels and a built-in ticket dispenser that rewards players for their accuracy and performance during family-friendly play sessions. Operators can link up to 15 cabinets for massive multiplayer showdowns, creating a high-energy competition hub that appeals to kids, teenagers, and competitive adults alike. This high-traffic attraction combines a world-famous gaming icon with engaging physical gameplay, ensuring it remains a consistent revenue driver and a centerpiece for any modern venue.

## BOXER PREMIUM

Dimensions: 700W x 1200D x 2100H MM

Boxer Premium is the ultimate strength-based attraction, blending a timeless punching classic with modern scoring technology to create an exhilarating experience for the dynamic young adult demographic. The machine features an unbreakable mechanism designed for unparalleled durability, ensuring it can withstand endless hours of high-intensity play in the most demanding arcade environments. Players are immersed in a dazzling spectacle of vibrant LED lights that react to every strike, while a dynamic scoring system accurately evaluates power to foster fierce competition. This quintessential strength tester combines a mesmerizing visual glow with a rewarding competitive spirit, making it a high-traffic centerpiece that keeps enthusiasts returning for more action.

## KICK PUNCHER

Dimensions: 1300W x 1200D x 2100H MM

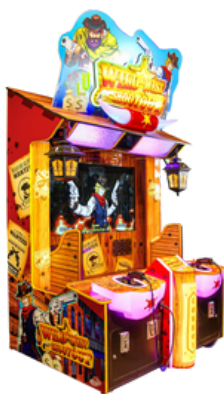

Kick Puncher is the ultimate boxing machine from NatPol designed specifically for young fighters to unleash their inner champion through a safe and exhilarating combination of punches and kicks. The cabinet features a sleek, slim-profile design and advanced LED technology that illuminates any space with vibrant lighting while fitting perfectly into compact arcade layouts. With adjustable settings to accommodate varying skill levels, kids can test their strength, speed, and agility against target pads in a rewarding environment that scales with their ability. Built with cutting-edge electronics for long-term reliability, this high-energy attraction provides a durable and consistent performance that makes it a standout revenue driver for any kids' zone.

## MMA HIT THE GREEN

Dimensions: 800W x 1150D x 2050H MM

Ultimate MMA is an attention-grabbing boxing and kickboxing game that tests speed and accuracy as players jab, punch, and kick multiple targets that light up from red to green. The intuitive gameplay rewards participants for hitting green-lit pads while subtracting points for hitting red ones, creating a high-energy race against the clock for high scores or tickets. Designed for versatility, the cabinet features four padded drum targets for strikes and a lower pad for kicks, all framed by a social-media-themed marquee displaying "likes" and "dislikes." With two distinct art themes available—Family for FECs or Fighter for bars—this durable attraction is ideal for gyms, trampoline parks, and entertainment centers seeking a physical competitive edge.

## WILD WEST SHOOTOUT

Dimensions: 1400W x 1070D x 2520H MM

Wild West Shootout is the industry's first cowboy-themed laser shooter where one or two players use "six-shooter" simulated pistols to fight criminals and arrest wanted outlaws for ticket prizes. The superbly detailed saloon-style cabinet features colorful LED lighting, wanted posters, swing doors, bull horns, and lanterns, creating an immersive frontier environment suitable for all ages. Players navigate five challenging levels to blast funny-looking bad guys and breakable bonus targets, while carefully avoiding hostages to maintain their score and maximize their ticket rewards. With its high-impact visual design and proven performance, this interactive western adventure can be enhanced with an optional large top marquee to become a standout attraction in any facility.

## CAPTAIN SHOOTOUT

Dimensions: 700W x 1200D x 2680H MM

Captain's Treasure is a skill-based redemption game where players use an interactive cannon to blast highly detailed molded targets, including explosive barrels, birds, and an animated flag. The gameplay features random, unpredictable movement to ensure a fresh challenge every time, highlighted by a captain who slides from side to side to dodge shots and keep players engaged. The cabinet is a visual masterpiece, featuring beautiful nautical-themed artwork, bright LED lighting, and an eye-catching multicolor ship steering wheel that attracts guests of all ages. By combining intuitive mechanics with a high-impact aesthetic, this maritime adventure drives consistent traffic and repeat play as participants compete to win the maximum number of tickets.

## LIL TICKET MONSTERS

Dimensions: 780W x 1100D x 2700H MM

Lil' Ticket Monsters brings the massive success of the original Ticket Monster to a junior-sized cabinet, featuring three new characters—Burp, Toot, and Grunt—for a scary good time. The game features a child-friendly pull-and-push handle that gives the wheel a monstrous spin, allowing younger players to test their luck and win big ticket rewards. Designed with a compact footprint and shorter stature, this unit is easy to place in locations with limited ceiling height while still utilizing eye-catching graphics to attract guests. Combining exciting sound effects with a world-class revenue-generating pedigree, this approachable attraction ensures that even the smallest players can experience the thrill of a giant win.

## SKULL OF SHADOW

Dimensions: 2040W x 1460D x 2670H MM

Skull of Shadow is an innovative 4-player shooting game showcased on a massive 75" HD screen, plunging players into a swashbuckling battle against ghostly adversaries and legendary pirates. The cabinet features a gorgeously themed pirate environment complete with treasure chests and ocean vistas, creating a compelling backdrop that transports participants straight into a high-seas adventure. Players utilize an intuitive, tactile shooting mechanism to navigate eight different retro game scenarios, defeating enemies to earn points that translate directly into tangible ticket rewards. With its stunning animations and diverse range of seafaring challenges, this high-capacity attraction offers immense replay value.

## BOXER STANDARD

Dimensions: 700W x 1200D x 2300H MM

Boxer Standard from Natpol allows players to step into the ring as a champion boxer, testing their punching power on a machine built for reliability and consistent arcade performance. The cabinet features a unique and distinctive sticker design that makes it a standout attraction, drawing in competitive players looking for a classic strength-testing challenge. Equipped with a simplified, easy-to-use interface and cutting-edge electronics, the game ensures seamless operation for both players and venue owners in any high-traffic environment. This timeless entertainment piece combines a durable physical mechanism with an engaging scoring system, making it the perfect choice for locations seeking a high-earning, low-maintenance centerpiece.

# **VIDEO AND ARCADE MACHINES**

## JAMES BOND 60<sup>TH</sup> ANNIVERSARY

Dimensions: 690W x 1400D x 1920H MM

Own a piece of cinematic history with the ultra-rare 007 60th Anniversary Limited Edition pinball machine, celebrating 25 films and limited to just 500 units worldwide. This collector's dream blends classic mechanical score reels with modern gameplay, featuring a playfield LCD, 10 drop targets, and four high-speed optical spinners for tactical action. The cabinet is finished with high-gloss powder-coated armor, mirrored back glass, and an exclusive Union Jack shooter knob, all signed by the designer for ultimate authenticity. Experience the evolution of Bond through Insider Connected™ features and immersive tactile feedback, making this the definitive tribute to the world's most famous secret agent.

## KING KONG: MYTH OF TERROR ISLAND

Dimensions: 690W x 1400D x 1920H MM

Embark on a heart-pounding journey through a creatively re-invented King Kong saga, spanning from Terror Island to the New York City skyline. This four-flipper adventure features an innovative playfield design packed with custom-sculpted mechanisms and iconic cinematic action. Players will experience immersive storytelling brought to life through completely original animation, music, speech, and sound effects. Every shot delivers a high-stakes experience, blending cutting-edge gameplay with stunning visuals for the ultimate tribute to the fabled king.

## STAR WARS COMIC HOME

Dimensions: 690W x 1400D x 1920H MM

Experience the original Star Wars™ trilogy like never before with the Comic Art Home Edition™, featuring immersive speech, video, and vibrant high-definition cabinet art. This fast-paced game brings the galaxy to life using a custom-sculpted Death Star, an interactive TIE Fighter, and dazzling color-changing LED light shows. Built with commercial-quality components, the reliable design is easy to set up and delivers a professional-grade cinematic experience for fans of all ages. It's the ultimate home tribute to the saga, blending iconic moments with dynamic playfield lighting for a truly stellar adventure.

## AVENGERS INFINITY QUEST

Dimensions: 690W x 1400D x 1920H MM

Become Earth's mightiest heroes and battle Thanos across the cosmos to recover the six Infinity Gems before the Black Order can claim them. This high-energy adventure features an interactive Dr. Strange Sling Ring spinning disc, a motorized pop-up portal scoop, and a custom-sculpted Thanos Gauntlet with light-up gems. Master the Avengers Tower magnetic lock ramp and the gravity-defying Captain Marvel wireform while navigating a playfield packed with three full-size flippers and hand-drawn comic artwork. From the Pym Laboratories up-kicker to the Thor captive ball, every feature is designed to deliver a cinematic and action-packed pinball experience.

## DEADPOOL PREMIUM

Dimensions: 690W x 1400D x 1920H MM

Dive into the chaotic world of Deadpool as you team up with the X-Men to battle iconic villains and embark on time-traveling quests against a T-Rex and Megalodon. This Premium edition features stunning hand-drawn art by Zombie Yeti and the eccentric voice of Nolan North, alongside a motorized disco ball and a custom-molded chimichanga truck. Master the Katana Sword ramp and a 3-bank drop target guarding a Lil' Deadpool bash toy, all while enjoying a custom "Mix Tape" of 11 original tracks.

## JURASSIC PARK PREMIUM

Dimensions: 690W x 1400D x 1920H MM

Transport yourself to Isla Nublar in this heart-pounding adventure to rescue park staff and recapture dinosaurs unleashed by Dennis Nedry's chaotic computer virus. Premium models feature a stunning animatronic ball-eating T. Rex and a motorized Raptor Pen lock mechanism, complemented by hand-drawn art of the franchise's most iconic predators. Navigate the island using the Jungle Adventure Vehicle spinning Newton Ball, which registers hits to light T. Rex modes and determine your path through the park. With three full-sized flippers, four custom ramps, and unique mosquito-in-amber pop bumpers, the gameplay is designed to be accessible for beginners yet challenging for masters.

## IRON MAIDEN PINBALL

Dimensions: 690W x 1400D x 1920H MM

Embody the fearless spirit of the British heavy metal legends as you take on the role of Eddie to defeat the Beast across a multiverse of comic and mobile game worlds. This high-energy experience features twelve iconic Iron Maiden tracks and a playfield designed with four flippers, two spinners, and a strategic center bullseye target. The dynamic flow is fueled by metal wireform ramps, a captive ball mechanism, and a dual up-post lock system that challenges players of all skill levels. From the 3-bank drop targets to the immersive concert-like atmosphere, every element captures the ferocious dedication and creative independence of one of the world's most influential bands.

## FOO FIGHTERS PINBALL

Dimensions: 690W x 1400D x 1920H MM

Rock out with the Foo Fighters in an action-packed mission to thwart the evil alien Overlord across an Area 51-themed playfield featuring 15 iconic hits like "Everlong" and "The Pretender." This high-energy machine brings the concert experience home with hand-drawn art and custom animations from the fictional "Saturday Morning Action Time" TV series, developed with input from the band. Navigate your journey in the custom Foo Fighters Tour Van to select destination cities and trigger explosive multiballs, including Area 51, Overlord, and the Final Battle Wizard mode. With Insider Connected integration for global challenges and a dynamic light show that captures the intensity of a live performance, this is the ultimate tribute to the spirit of rock and roll.

## RACING XTREME

Dimensions: 2550W x 2810D x 2870H MM

Experience the ultimate high-performance racing thrill with a cutting-edge simulator that delivers an unmatched motorsport feel through immersive panoramic visuals and motion-synched seating. Featuring four 55" HD screens and advanced graphics, the system realistically simulates every drift, acceleration, and sharp turn on the track. The dynamic seating responds instantly to in-game movements while immersive sound effects bring the roar of the engine to life for a true professional racing experience. Designed for competitive environments, cabinets can be linked to allow up to 8 players to go head-to-head in high-stakes multiplayer action.

## DAYTONA USA EDITION

Dimensions: 1290W x 2690D x 2340H MM

Daytona Championship USA returns in a stunning Motion Edition, featuring a custom air-ride system that delivers every drift and impact with striking realism. This eye-catching cabinet, sporting the iconic Hornet livery and chrome accents, uses a 49" HD display at 60fps and 4-speed shifting to bring six high-speed tracks to life. Players can compete head-to-head by linking up to four cabinets, utilizing the Live Camera System to show their "Race Face" while battling smart opponents and the classic catch-up mechanic. Engineered for both excitement and safety, the machine includes force-feedback steering, surround sound, and a dedicated tournament mode for the ultimate competitive arcade experience.

## DEFENDER GT JAMMA

Dimensions: N/A

Relive the golden age of 1980s arcades with the Defender GT JAMMA Commercial Cabinet, a faithful and durable recreation of the iconic side-scrolling space shooter. This plug-and-play machine features an original licensed JAMMA game board for authentic gameplay, allowing players to battle alien invaders and rescue astronauts just like the 1981 debut. Built for high-traffic environments, the cabinet combines traditional woodworking and nostalgic design with modern internal components for maximum reliability in bars, lounges, or arcades. Every unit comes fully equipped with a customizable coin or contactless payment mechanism and is backed by full technical support to ensure the legacy of Defender lives on.

## SPEED DRIVER 5

Dimensions: 1030W x 1640D x 2310H MM

Experience the world's first 4K arcade racing game on a stunning 43" UHD screen, featuring an impressive cabinet with animated LED displays and force-feedback controls. Speed Driver 5 offers 20 challenging tracks and an engaging Story Mode for car tuning, alongside local linked play for up to four units and a Live Camera "Race Face" system. Its robust online infrastructure allows for real-time global battles, free account tracking via smartphone QR login, and an eSports-level Team/Partner system for competitive communities. This high-performance machine delivers elite racing value at a far more affordable price point, blending 6-speed manual shifting with nitrogen-boosted speed for the ultimate driving experience.

## CYBERPUNK TURF WARS

Dimensions: 1270W x 3960D x 2610H MM

Cyberpunk delivers a two-player cinematic shooting experience featuring patent-pending blast effects that use lighting and rubber bullets to emulate futuristic space battles. The projection-mapped display blends high-quality visuals with physical targets for lag-free action across Story, Co-Op/Versus, and Sniper modes. Its innovative pillarless cabinet provides a three-sided unobstructed view, while e-sport-style attract modes project player expressions to boost engagement for both participants and spectators. Operators can maintain peak performance through remote game management, which allows for real-time monitoring, troubleshooting, and content updates from anywhere in the world.

## SUPER BLASTER

Dimensions: 3050W x 2780D x 3940H MM

Daytona Championship USA returns in a stunning Motion Edition, featuring a custom air-ride system that delivers every drift and impact with striking realism. This eye-catching cabinet, sporting the iconic Hornet livery and chrome accents, uses a 49" HD display at 60fps and 4-speed shifting to bring six high-speed tracks to life. Players can compete head-to-head by linking up to four cabinets, utilizing the Live Camera System to show their "Race Face" while battling smart opponents and the classic catch-up mechanic. Engineered for both excitement and safety, the machine includes force-feedback steering, surround sound, and a dedicated tournament mode for the ultimate competitive arcade experience.

## QUBE

Dimensions: 3050W x 2780D x 2540H MM

Qube redefines the simulator ride category with a four-player, small-footprint attraction that utilizes a massive 100" 4K laser projection for high-immersion group play. Powered by the Unreal Engine 5, the experience combines dynamic motion seats, wind FX, and 5.1 surround sound with three high-impact films tailored for tweens, teens, and adults. The integrated individual scoring system fosters friendly competition, encouraging repeat rides and generating a high ROI for operators in an attendant-free format. This family-friendly 2D immersive adventure provides top-tier visuals and sensory feedback, making it a standout competitive feature for any entertainment venue.

## APEX REBELS

Dimensions: 1540W x 2800D x 2430H MM

Apex Rebels delivers an elite racing experience through a motion-base cabinet that allows players to feel every drift and boost in real-time. Powered by Unreal Engine 5, the game features a 65" LED monitor and a massive panoramic LED Matrix Billboard that displays live leaderboards to attract crowds. Players can choose from five high-octane futuristic cars, racing across four environments while passing through checkpoints to unlock performance upgrades and utilize "boost on demand" to fly over rivals. The showstopper cabinet includes custom lighting, intelligent adaptive difficulty for all skill levels, and the ability to link up to four units for high-stakes competitive attractions.

## HYPER CROSS

Dimensions: 2710W x 2220D x 2300H MM

Experience a heart-pounding snowmobile adventure on the Hyper Cross twin cabinet, featuring full-size replica sleds and a 3-degree-of-freedom motion base for total immersion. Feel the chill with integrated wind effects and force feedback as you scorch the ice across ten breathtaking cross-country tracks and choose from five unique characters. This striking machine is designed for both casual and core players, utilizing dual 42" monitors and the ability to link cabinets for competitive four-player racing action. It is the ultimate attraction for bowling alleys and entertainment centers, combining high-speed thrills with an exceptional motion-controlled gameplay experience that brings every twist and turn to life.

## STORM RIDER 2

Dimensions: 3060W x 2670D x 2490H MM

Storm Rider 2 features a stunning new two-player cabinet with a 47" Full HD monitor and futuristic, fully lit bikes designed to capture immediate attention. Powered by the Unreal Engine, the game offers four realistic racetracks and three unique characters that come to life through a side-to-side motion base for an unprecedented immersive experience. Players can utilize touchscreen lobby controls and a high-speed boost button to navigate advanced AI difficulty that caters to both casual and core racing fans. For ultimate competitive action, up to four units can be linked, allowing friends to challenge each other in epic multiplayer battles across the futuristic landscape.

## MISSION IMPOSSIBLE DLX

Dimensions: 1440W x 1700D x 2640H MM

In this mission-based adventure, you play as an agent tasked with saving the world from weaponized humanoid robots using a variety of high-tech gadgets and weapons. The deluxe two-player cabinet features a 55" Full HD screen, nine adrenaline-fueled stages, and three action-packed missions that must be completed before time runs out. Experience explosive action through a surround sound system with subwoofers and an innovative floor equipped with base shakers for thrilling tactile feedback. Equipped with brand-new dual pistol controllers and striking edge-to-edge lighting, this cabinet creates an irresistible attraction for players seeking a high-stakes, cinematic espionage experience.

## JET BLASTER

Dimensions: 1130W x 2630D x 2340H MM

Jet Blaster delivers the most realistic waterski racing experience through a custom-developed air motion platform that perfectly simulates real wave-bouncing action. Players can choose from five unique characters and race through six stunning, lifelike environments using nitrogen boosts and outrageous stunts to secure a win. The high-immersion cabinet features integrated wind effects, heart-pounding soundtracks, and a jet bike upgrade system that encourages repeat play to maximize performance. For ultimate group competition, up to four units can be linked, allowing friends to experience blazing-fast speeds and adrenaline-filled thrills in a head-to-head aquatic showdown.

## GOLDSTORM PIRATES

Dimensions: 1810W x 2600D x 2680H MM

Goldstorm Pirates™ is an immersive two-player adventure where agents battle undead hordes and mysterious sea creatures across five challenging levels, each culminating in a monstrous boss fight. The cabinet features unique gameplay mechanics, allowing players to utilize double-handed guns and an iconic helm wheel to navigate the action while searching for hidden treasures and power-ups. Stunning visuals and a pounding pirate-themed soundtrack create a breathtaking audio-visual experience that captivates players of all ages through high-energy cooperative gameplay. Designed for maximum engagement, this thrilling attraction blends high-stakes combat with a legendary seafaring quest to ensure a high-action experience for every duo.

## DEAD HEAT UNLEASHED

Dimensions: 1030W x 1600D x 2430H MM

Dead Heat Unleashed builds on its predecessor's success with an intense racing experience featuring eight realistic global courses, including San Francisco, London, and New York. This super-cool LED-lit cabinet responds to gameplay lighting and features ten licensed legends like the Nissan GT-R50 and Toyota Supra, which players can crowd into rivals to earn instant boosters. A unique photo feature allows drivers to see exactly who they are battling for first place, fostering high-level repeat play and competitive engagement across linked setups of up to four cabinets. By combining high-stakes physics with a diverse car lineup and interactive lighting, this machine ensures a thrilling ride that maximizes ROI for any entertainment venue.

## MARIO KART ARCADE

Dimensions: 1050W x 1600D x 2390H MM

Mario Kart brings the Mushroom Kingdom to life with an electrifying racing adventure featuring 17 beloved characters and 20 iconic karts capable of triggering over 90 special features. The vibrant rainbow LED-lit cabinet houses a 42" HD monitor and dynamic lighting that changes color as players complete laps across five selectable cups in Grand Prix mode. Experience ultimate competition in Versus mode or team up in the unique 2-player co-op mode, where "Fusion Karts" allow one player to drive while the other blasts rivals. With the ability to link up to four cabinets, this attraction offers high-energy, head-to-head racing that captures the zany power-up fun and joy of the legendary franchise.

## SUPER BIKES 3

Dimensions: 1150W x 2150D x 2510H MM

Super Bikes 3 takes you on a heart-pounding journey through high-speed motorcycle racing, now rendered in stunning high-definition with an all-new light show and electrifying visual effects. Choose from 10 unique riders and 8 fierce bikes to dominate 8 killer tracks, utilizing a new modification system that allows players to buy upgrades for a competitive edge. The cabinet is available in four attractive colors designed to appeal to all players, featuring a cabinet design that creates an immersive, high-energy atmosphere in any entertainment center. For the ultimate competitive experience, you can link up to 8 cabinets, allowing for massive head-to-head battles across breathtaking scenery filled with high-speed twists and turns.

## PAC-MAN PIXEL BASH

Dimensions: 630W x 850D x 1740H MM

PAC-MAN's Pixel Bash brings the golden age of gaming to your venue with an authentic upright cabinet designed to suit any arcade aesthetic while inspiring nostalgia for all ages. This single machine features 31 officially licensed NAMCO classics, including legendary titles like PAC-MAN, Ms.PAC-MAN, Galaga, DigDug, and Splatterhouse, all in their original glory. The durable commercial-grade construction ensures a long-lasting and reliable entertainment solution, allowing players to relive their favorite childhood memories or discover retro hits for the first time. With such a diverse library of iconic games packed into one footprint, it provides a high-value attraction that keeps customers engaged and coming back for more high-score action.

## WORLD'S LARGEST PAC-MAN

Dimensions: 1720W x 3050D x 2740H MM

The legendary Pac-Man returns in a massive arcade-exclusive format featuring a billboard-sized 108-inch LED display and updated simultaneous two-player cooperative gameplay. This high-impact cabinet includes free Galaga software for a two-in-one value and features operator-programmable advertising to display FEC branding and promotional offers on the captive big screen. Competitive "bragging screens" highlight high scores and point leaders after each level, while a convenient "coin-up" option allows players to continue the action immediately if they lose a life. By blending iconic retro gameplay with an impossible-to-miss visual presence, this machine serves as both a premier gaming attraction and a powerful marketing tool for any venue.

## SMASH DX

Dimensions: 1250W x 2450D x 2850H MM

Smash DX redefines the racing category with a state-of-the-art motion base that allows players to feel every pulse-pounding moment of off-road action in real time. The standout cabinet features a rugged, smashing design with captivating custom lighting and a 55" display screen that elevates the visual experience for both players and spectators. Designed for intense competition, the unit is available as a two-player configuration and can be linked for up to four players to create the ultimate multiplayer racing attraction. With an optional high-impact marquee and thrilling, edge-of-your-seat gameplay, this machine delivers a high-energy experience that makes it a centerpiece for any modern arcade or entertainment venue.

## WAVE RIDERS X-TREME

Dimensions: 1240W x 2280D x 2250H MM

Dive into an adrenaline-fueled world of high-speed jet ski racing where a stunning themed cabinet and motion base deliver realistic wave-crushing action. Choose from eight unique characters and eight powerful jet skis to navigate breathtaking water environments in both 'Challenge' and 'Time' modes, featuring epic stunts and obstacle courses. The cutting-edge graphics and sound effects are paired with force feedback, allowing players of all skill levels to experience every twist and turn through accessible, easy-to-learn controls. Whether for casual fun or core competition, this immersive experience provides a heart-pounding rush that makes the ocean your ultimate playground.

## AIR STRIKE

Dimensions: 2190W x 1640D x 2220H MM

Air Strike introduces a unique pendulum motion effect that immerses players in high-flying action as they race through multiple fantastical worlds and challenging environments. Players can choose from various characters and locations, collecting power-ups and shooting down targets to destroy enemies in an adrenaline-fueled aerial battle. This engaging cabinet supports a pendulum motion base at each player position to simulate flight, making it a standout attraction for any entertainment center. With the flexibility of optional redemption operation, this machine combines competitive racing and shooting mechanics to drive high engagement and repeat play for all ages.

## SPEED RIDER 4DX

Dimensions: 2600W x 2380D x 2380H MM

This next-level attraction lets players lean, drift, and boost through 12 dynamic tracks across six iconic cities, delivering an adrenaline-fueled racing adventure on the world's first realistic drift-motion bike platform. The massive 100-inch cross-screen offers breathtaking clarity while an immersive 4.1 surround sound engine and a forward-lean motion base recreate the authentic physics of riding a real superbike. Players can choose from eight original upgradable bikes and stylish stunt riders, competing for glory on a built-in tournament-style digital billboard that serves as a stunning centerpiece for any room. With the ability to link up to four players for intense head-to-head battles and free ongoing updates to keep the content fresh.

## FAST RACING

Dimensions: 2120W x 2420D x 2320H MM

Fast Racing delivers a high-octane two-player experience where drivers compete on a 43" HD screen across eight diverse scenarios filled with stunning morphing and acceleration effects. Players must master daring stunts and navigate thrilling air shows while collecting nitrogen and picking up strategic props to attack opponents and secure their lead. This new racing title blends fast-paced competitive driving with cinematic visual effects, creating an engaging atmosphere that keeps the adrenaline pumping from start to finish. By combining skillful stunt mechanics with high-speed tactical combat, the game ensures an addictive and immersive racing challenge that appeals to players seeking both speed and action.

## DANCERUSH STARDOM

Dimensions: 2510W x 1480D x 2210H MM

DanceRush Stardom is the next "LIT" attraction from the creators of DDR, offering a unique shuffle-dancing experience where players follow on-screen guidance using an LED matrix dance stage. This two-player cabinet features an immersive 4.1 channel surround sound system with a dedicated subwoofer and a massive library of over 200 tracks ranging from beginner tutorials to expert EDM. With fresh music updates added every six months and a built-in camera to record performances, the game provides a high-energy social experience that attracts large crowds to the dance floor. Operators can link two units for four-player dance-offs, creating the ultimate competitive environment for dancers of all skill levels to shuffle their way to stardom.

## TYPHOON MOTION THEATRE

Dimensions: 1590W x 2050D x 2200H MM

The Typhoon is the quintessential coin-op simulator ride featuring a special electrical motion platform capable of 2G acceleration and 200 motions per second for an unparalleled side-by-side experience. This 10th-anniversary edition boasts a stunning 4K resolution screen and an extreme wind effect that perfectly complements the motion to deliver a realistic, high-speed sensory rush. Guests can choose from a curated selection of 10 immersive films, ensuring a memorable and varied adventure that keeps them craving more with every visit. Made in Canada with high-end quality, this compact machine is a powerful revenue generator that provides a top-tier cinematic experience within a space-efficient footprint.

## ATV SLAM

Dimensions: 1180W x 2350D x 2580H MM

ATV Slam delivers the authentic thrill of off-road racing on a sensational cabinet featuring a life-size quadbike with massive lit wheels, a chrome engine, and striking lighting effects. The custom-developed motion platform and integrated wind effects allow players to feel every bump as they race through 10 exotic environments using "Unreal Engine 4" console-quality graphics. Players can choose from five characters and vehicles, mastering three game modes where they must pull stunts and avoid obstacles to earn essential upgrade points for future races. For a high-energy social attraction, up to four units can be linked, allowing friends to compete head-to-head in a challenging, adrenaline-pumping environment that demands attention in any venue.

## MISSION IMPOSSIBLE ARCADE 4 PLAYERS

Dimensions: 4000W x 2610D x 2860H MM

Mission: Impossible Arcade plunges a four-player team into high-stakes missions across nine action-packed stages, all displayed on two massive 55" HD screens for a cinematic tactical experience. The unique island centerpiece cabinet is designed as an IMF safe house, featuring built-in video cameras that display the leading players' faces in-game to heighten the competitive Team Red vs. Team Blue rivalry. Players utilize brand-new dual pistol controllers for superior accuracy and range of motion, while four powerful bass shakers embedded in the floor combine with surround sound and subwoofers for physical immersion.

## TRANSFORMERS SHADOWS RISING

Dimensions: 1740W x 2120D x 2910H MM

TRANSFORMERS Shadows Rising partners players with Optimus Prime, Bumblebee, and Sideswipe to battle Megatron's forces across America, Europe, Asia, and the solar system in a high-speed shooting adventure. The stunning Optimus Prime truck-themed cabinet features a 55" Full HD screen running at 60 frames per second, complemented by four speakers, subwoofers, and a base shaker for total sensory immersion. Players utilize the brand-new Hyperenergy Tech Lever, a unique physical interface that allows for both offensive and defensive maneuvers, including a devastating shockwave to clear waves of enemies. Designed for casual accessibility with nearly 30 minutes of total playtime across four action-packed stages, this game delivers a crisp and vivid combat experience that keeps fans returning to defend the Earth.

# **CARNIVAL AND MIDWAY MACHINES**

## RACE TIME

Dimensions: N/A

Race Time is an attendant-free carnival game that guarantees a fun, crowd-pleasing experience for all players. Strategically select one of three speed zones to propel your character across the playfield and gain a competitive edge. The game features flip-down counters that bring the high-energy derby action directly to the surrounding audience. An eye-catching, well-lit marquee enhances the overall visual appeal to draw in crowds and boost engagement.

## SIDEWINDER

Dimensions: 800W x 2200D x 1780H MM

Sidewinder offers fast-paced, attendant-free excitement for all ages by challenging players to guide a ball toward the goal. The game is fully compatible with card swipe systems, allowing for seamless activation and immediate, addictive gameplay. Players use a steering wheel to skillfully maneuver the ball down a winding playfield toward a lit target hole. Successful winners receive a specialty 2" x 4" ticket that can be redeemed for prizes or collected for larger rewards.

## BOWLER ROLLER

Dimensions: 2940W x 660D x 2020H MM

Bowler Roller is an attendant-free carnival game from Bob's Space Racers that blends classic bowling with modern, automated features for players of all ages. Players engage in precision gameplay by skillfully rolling the ball to keep it within the brightly lit rails to secure a challenging and rewarding win. The game offers customizable experiences through programmable settings, allowing operators to tailor gameplay styles and options to specific player preferences. Integrated sensors detect ball release to automatically reset the game, ensuring a seamless, efficient, and high-speed experience for the next participant.

## BAZOOKA BLAST

Dimensions: 1020W x 3880D x 2690H MM

Bazooka Blast from Bob's Space Racers is a high-action projectile game that operates entirely without an attendant for maximum efficiency. Once activated, the game automatically provides projectiles to players who aim for targets to trigger exciting wins and endless fun. Fully customizable electronic settings and built-in sensors ensure a seamless experience by automatically resetting the game for every new player. The modular design allows operators to expand the excitement by linking multiple units together to perfectly fit any facility or building size.

## CAT RACK

Dimensions: 1020W x 3120D x 2600H MM

Cat Rack modernizes the classic midway experience by offering an attendant-free format where players throw baseballs to knock over targets. The game features electronically controlled, flexible settings that allow operators to customize gameplay styles and difficulty levels to suit their needs. Integrated sensors detect when a ball has been thrown and automatically reset the playfield, ensuring a seamless and efficient experience for every guest. Successful players receive customizable 5 x 10 cm tickets for prize redemption, and multiple units can be linked to perfectly fit any building size.

## BALLOON BUST

Dimensions: 1020W x 3120D x 2450H MM

Balloon Bust from Bob's Space Racers brings classic midway excitement to an attendant-free format where players aim colorful balls at backlit LED targets. The game features vibrant, eye-catching graphics and electronically controlled settings that allow for versatile gameplay styles tailored to any audience. Precision built-in sensors ensure accurate play and provide seamless transitions by automatically resetting the game for each new guest. This simple yet challenging experience encourages repeat play and can be expanded by linking multiple units to fit any venue's specific floor plan.

## LARGE BALLOON BUST

Dimensions: N/A

Balloon Bust transforms the classic balloon-popping experience into an unforgettable, all-ages adventure by replacing sharp darts with safe bean bags. Players strategically target red or green balloon combinations to win tiered prizes, with more successful pops leading to even larger rewards. The game features a time-proven revenue model and an innovative "Auto Fill System" that automatically inflates balloons to save time and labor. This easy-to-play attraction is available in four, eight, or twelve-foot widths to ensure a perfect fit for any entertainment venue size.

## BASKETBALL HOT SHOT

Dimensions: 1020W x 3190D x 2600H MM

Hot Shot Basketball brings the classic midway experience to life with a full-sized, attendant-free setup that becomes the centerpiece of any game room. Built-in sensors detect every shot and automatically reset the playfield, ensuring smooth transitions and uninterrupted fun for every basketball enthusiast. Players earn specialty 5 x 10 cm tickets for their accomplishments, which can be redeemed for prizes or saved for larger rewards to boost engagement. The game features electronically controlled settings, allowing operators to easily tailor the gameplay and difficulty to match their specific venue preferences.

## TOP GLO

Dimensions: 4760W x 3630D x 3330H MM

Top Glo® is a high-energy, skill-based water race game where players compete to reach the top of the leaderboard by hitting targets. The robust design features patented rising light columns and vibrant pedestals showcasing popular characters that can be easily swapped to refresh the theme. Operators benefit from a self-contained, low-maintenance water system and a comprehensive game accounting system for effortless management and long-lasting performance. This versatile attraction offers custom theming options to perfectly match any location, ensuring year-round entertainment and consistent crowd-pleasing action.

## STINKY FEET

Dimensions: N/A

Stinky Feet™ is a hilarious, multi-target water race game featuring a unique bathtub theme that draws guests of all ages to compete. Players aim water at "stinky feet" or "soap" targets to propel LED lights up a channel, with the first to reach the top declared the winner. The game features whimsical faucet-style water guns and toilet-shaped seats, available in various character combinations for both group and arcade models. Operators benefit from a self-contained, low-maintenance water system and a complete accounting system, with custom theming available to suit any location.

## PRIZE WHEELS

Dimensions: 3340W x 1730D x 3470H MM

Prize Wheels™ is a thrilling, attendant-free attraction where guests use skill and timing to advance through spinning wheels toward grand rewards. Players must strategically time their button presses to land on colored sections, facing increasing challenges as they move higher up the wheels. The captivating cabinet features vibrant aesthetics and user-friendly controls, designed to enhance the anticipation and joy of every interactive spin. Operators can utilize flexible, programmable electronic settings to customize everything from the gameplay difficulty to the wide range of prize options.

## WHOPPER WATER

Dimensions: N/A

Whopper Water™ FEC is a high-revenue water racing game that packs the excitement of a full-sized midway attraction into a compact footprint for family entertainment centers. Players take their seats and aim water guns at backlit targets, propelling toys toward the sky in a competitive race where the first to the top wins. The game features a self-contained, low-maintenance water system that is pre-wired for seamless card swipe installation and immediate, attendant-free operation. To drive a "prize frenzy," it distributes special 4-inch tickets that offer unique redemption abilities, helping facilities effectively merchandise and encourage repeat play.

## TUBE DASH SPLASH

Dimensions: N/A

Tube Dash Splash combines water race excitement with an innovative sloped track field, creating a dynamic racing experience where players shoot targets to move characters toward the finish line. The game is available in flexible 6 to 12-player models that can be fully customized to match your venue's capacity and specific entertainment setup. Advanced electronic systems simplify troubleshooting and maintenance, while a comprehensive accounting system tracks scores and rewards for seamless, trouble-free management. Designed for all ages, this water-soaked adventure fosters friendly competition and brings a high-energy, modern aesthetic to any family entertainment center.

## CLOWNIN' AROUND

Dimensions: N/A

Clownin' Around™ Water Game captures the classic essence of carnival fun by challenging players to aim specialty clown fish water guns at backlit targets to race their characters to the finish. The game features multiple targets with progressive speeds and a self-contained, easy-to-maintain water system that ensures reliable, year-round performance in any arcade setting. Operators benefit from Bob's Space Racers' dependable, easily serviced electronics and a complete game accounting system for efficient management and revenue tracking. This interactive attraction is completely customizable to suit your location's specific needs, providing a skill-based experience that brings laughter and competition to guests of all ages.

## ROLL A BALL

Dimensions: 3920W x 2980D x 2500H MM

Roll-A-Ball™ is the industry-leading derby race game, offering unmatched innovation and profitability through its high-energy, skill-based competition. Players strategically roll balls into one of three speed zones to determine their character's advancement, aiming for higher zones to gain a competitive edge. The game features flip-down counters that bring the race action closer to the audience, ensuring everyone experiences the thrill of the derby. A vibrant, well-lit marquee draws in crowds and enhances the visual appeal, making it a standout attraction in any entertainment facility.

## PIXEL PLAY WATER GUN

Dimensions: N/A

Pixel Play™ Water Gun Fun™ is a striking vertical water game featuring vibrant, pixelated graphics and bright displays designed to attract and thrill guests. Players must skillfully aim at backlit targets with progressive speeds to propel their characters up the wall in a high-energy race to the finish. The game utilizes Bob's Space Racers' most advanced electronics for simplified troubleshooting alongside a built-in accounting system for effortless management. A self-contained and easy-to-maintain water system ensures a seamless, trouble-free experience while delivering a modern twist on a classic midway favorite.

## HANG TIME

Dimensions: 2980W x 870D x 3660H MM

Hang Time is a simple yet challenging attraction where players test their strength by hanging onto a bar for as long as possible to win tiered prizes. The game features motor-controlled bar height and an automated lift function that elevates players above the floor for an effortless and exciting start. Integrated sensors manage precise timing and bar height, while electronically controlled sounds and spiels work together to attract crowds and build excitement. Operators benefit from a low-maintenance design with accessible components, enhanced safety features, and a built-in accounting system for efficient revenue tracking.

## BOB'S FISHIN' HOLE

Dimensions: 2980W x 870D x 3660H MM

Bob's Fishin' Hole™ is a captivating, skill-based attraction that brings the thrill of fishing to any arcade through precision casting and dynamic, aquatic-themed gameplay. Players catch physical fish and place them on a digital scale that uses preprogrammed RFID technology to instantly determine the weight and corresponding prize. The highly engaging "catch and weigh" concept encourages repeat play as guests strive to hook the heaviest fish for the chance to win bigger and better rewards. The vibrant, user-friendly cabinet design attracts players of all ages, offering a seamless experience that perfectly blends traditional fishing fun with modern technology.

## BAZOOKA BLAST 3 PLAYERS

Dimensions: N/A

Bazooka Blast is a high-energy, foam-ball-firing game where guests use air cannons to test their accuracy by knocking down displays of cans. Players of all ages enjoy safe, interactive competition as they aim to clear targets within a preset number of shots to win exciting prizes. The game features immersive sound effects and built-in safety features, creating a thrilling environment that draws in both players and onlookers. Available in multiple configurations to suit any location, this fast-paced attraction fosters friendly rivalry while remaining easy to learn and simple to manage.

## JUMPIN MONKEYS

Dimensions: N/A

Monkey Jump is a high-energy group game where players push a button to time their monkey's jumps over a rope, competing for the highest score. The addictive gameplay tests coordination and timing within an enchanting jungle-themed setting that features vibrant, colorful visuals to attract guests. The cabinet is fully customizable in theme, color, and height, ensuring the attraction perfectly integrates into any venue's specific aesthetic or floor plan. Operators benefit from dependable, easily serviceable electronics and a comprehensive accounting system that ensures efficient management and long-term reliability.

## SOCCER CHALLENGE

Dimensions: N/A

This soccer-themed game brings high-energy competition to your venue by challenging guests to kick balls past a goalie to win tiered prizes. The eye-catching design features vibrant graphics and an energetic atmosphere, with multiple gameplay options and timers to keep players fully engaged. Operators can choose from various configurations—including standard, kicker, and kit models—with custom theming available to perfectly match any location. Integrated automatic sensors accurately detect every goal scored, ensuring a seamless and fair experience that drives repeat play and excitement.

## LONG RANGE BASKETBALL

Dimensions: N/A

This sensational basketball attraction takes the classic sport to new heights, offering guests a dynamic way to test their accuracy through friendly competition. The game is available in flexible three to five-player configurations, making it a perfect fit for venues ranging from small arcades to large midway spaces. Operators can choose between interior or exterior counters and benefit from included stock bins, ensuring a organized and efficient prize distribution system. The entire unit is completely customizable and offers an optional lighted sign to enhance visibility and attract basketball enthusiasts from across the floor.

## SHORT RANGE BASKETBALL

Dimensions: N/A

Short Range Basketball generates big revenue within a small footprint, providing a perfect location-flexible attraction for guests to test their shooting skills. The game utilizes regulation basketballs and challenges players to reach a specific basket count to earn prizes, driving high engagement and repeat attempts. Available in three or four-player configurations, the unit includes interior and exterior counters alongside built-in stock bins for organized prize management. The entire setup is completely customizable to match your venue's branding, ensuring it fits seamlessly into your entertainment space while maximizing floor efficiency.

## TUB TOSS

Dimensions: N/A

Tub Toss is a classic midway favorite that challenges guests of all ages to skillfully land balls into a tub without them bouncing back out. The game is engineered for maximum profitability and operational efficiency, utilizing a time-proven format that ensures high engagement and consistent revenue. With flexible configurations ranging from 3 to 8 players, this versatile attraction can be scaled to fit the footprint and capacity of any entertainment venue. Each unit is custom-built to your specific requirements, providing a durable and attractive setup that keeps players coming back to test their skill for prizes.

## ROLL DOWN ADD THEM UP

Dimensions: N/A

Roll Down Add'Em Up is an innovative, attendant-free attraction that redefines the classic carnival experience by offering a seated gaming format driven by skill and strategy. Players roll balls down a seven-lane field to hit specific point values, aiming for a predetermined total to achieve victory and earn redemption tickets. Built-in sensors automatically detect play and reset the game for the next guest, ensuring seamless transitions and uninterrupted fun without the need for an operator. Operators can fully customize the experience through flexible, electronically controlled settings, making it a high-convenience and profitable addition to any arcade or FEC.

Adult  
HY-STRYKER

## HY STRYKER

Dimensions: N/A

Hy Stryker™ is a high-energy attraction where guests test their strength by striking the base with a hammer to achieve the highest score for the best prizes. The game features a superbright LED package and a programmable attract mode with colorful light patterns and crowd-drawing sounds to capture attention. Operators can easily manage difficulty, volume, and hit sensitivity via built-in diagnostic displays, while integrated hydraulics allow for quick setup and teardown. Available in a massive 23-foot height, the unit includes easy and hard gameplay buttons and built-in Play-and-Win meters to ensure a fair and profitable experience.

## STRIKE ZONE II

Dimensions: N/A

In this fast-paced racing game, players roll balls into numbered holes to reach a target score within a programmable time limit to win. Landing balls in higher-difficulty holes earns more points, and those who meet the score goal are rewarded with a unique 4-inch prize redemption ticket. Built-in sensors automatically detect play and reset the system for the next guest, ensuring a seamless, attendant-free experience that is ready for card swipe integration. The units can be grouped together to maximize revenue and are designed to scale according to your facility's footprint and player capacity needs.

## WATER BLAST

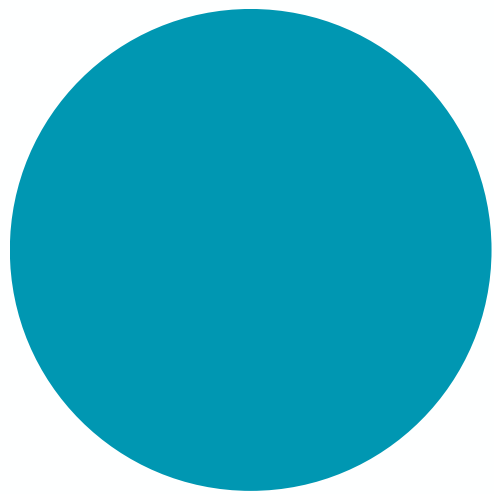

Dimensions: N/A

In this 4-player water blast game, guests aim water guns at backlit targets to fill LED light bars in a high-energy race to the top. The first player to reach the finish triggers a buzzer and receives a special 4-inch prize ticket, driving a "prize frenzy" through unique redemption abilities. Designed with a small footprint for smaller FECs, the game features a self-contained water system and allows for easy installation without specialized assistance. The unit is fully customizable with optional Tri-Targets and bespoke artwork, making it a top-grossing revenue earner that can be tailored to any venue's theme.

# **KIDDIE RIDES MACHINES**

### GATOR PANIC

Dimensions: 1080W x 1550D x 1050H MM

A glowing button puts kids in control, activating vibrant lights, rhythmic motion, and catchy music. The gentle, rhythmic movement provides a safe yet exciting adventure tailored for young riders. Its immersive atmosphere and durable design ensure a reliable and engaging play experience. Built for nonstop energy, this ride delivers endless fun and discovery for every little adventurer.

### AIR BABY

Dimensions: 1000W x 1400D x 1050H MM

Designed for ages 2-7, this vibrant single-seat ride brings interactive, hands-on fun to any indoor location. Dynamic LED lights and cheerful sound effects create an engaging sensory experience that toddlers will love. The compact, colorful frame fits perfectly into small spaces while ensuring safe and focused individual play. Simple controls empower young children to lead their own adventure, making it a must-have attraction.

### HELLO KITTY UP AND DOWN

Dimensions: 700W x 1350D x 1300H MM

This charming Hello Kitty-themed swing trunk delights kids aged 2 to 7 with a magical, immersive ride experience. Vibrant LED elements and glowing lights create a captivating visual display that instantly brightens up any play area. Integrated sound effects and an attractive, colorful design work together to capture attention and keep little ones engaged. Perfect for malls or arcades, this durable attraction combines a beloved character with interactive features for timeless fun.

### ROY FIREMAN

Dimensions: 740W x 1210D x 1250H MM

In this two-player interactive game, participants insert coins and press the green button to begin their mission. Players use laser guns to target fires across multiple scenes, aiming for high scores and top rankings. Strategic play is rewarded as players collect fire extinguishers to douse flames faster and save the building. The dual-seat design fosters a fun, cooperative experience as partners work together to extinguish every fire.

### PROTON

Dimensions: 1140W x 2200D x 1210H MM

This innovative racer features a movement mechanism integrated directly into the figure, combining high-quality design with a stable ride. Equipped with two secure seats and safety belts, it allows pairs to enjoy an immersive video game experience together. Striking RGB LED lighting creates a vibrant atmosphere, while adjustable volume controls ensure the perfect audio level for any setting. As the newest attraction in kiddie racing, it offers a unique blend of safety and high-energy fun for young adventurers.

### HELLO KITTY PARTY

Dimensions: 1550W x 1550D x 2000H MM

This charming Hello Kitty-themed ride invites young girls into a magical tea ritual set atop a classic carousel-style movement. The sturdy, durable base supports three comfortable seats, allowing multiple friends to enjoy a gentle and steady circular journey together. Vibrant colors and beloved character designs create an enchanting atmosphere that makes it a standout attraction for fans of all ages. Combining a timeless play pattern with an iconic theme, this ride offers a safe and delightful experience for any toddler-friendly space.

### HELLO KITTY FUNNY FLIGHT

Dimensions: 900W x 1600D x 2000H MM

This charming one-seater ride features a beloved Hello Kitty theme and a beautiful design that instantly captures children's attention. The dynamic motion moves the rider up, down, and in rotations simultaneously to create a fun and exciting flying sensation. Safety is prioritized with an integrated seatbelt, ensuring a secure experience for little adventurers in arcades, malls, or play zones. It brings joy and interactive excitement to any space, combining iconic character appeal with a high-quality, engaging ride mechanism.

### POLICE SECURITY DRONE

Dimensions: 1000W x 1540D x 1560H MM

Young heroes can save the city in this futuristic security drone, a two-player electromechanical vehicle featuring a unique elevating movement. The ride includes a 16:9 ratio screen for an immersive experience, though it is also available as a standalone ride without the video game. Safety is ensured with two integrated seat belts, while striking RGB LED lights create a vibrant and high-tech visual display. This cutting-edge racing attraction combines interactive city-saving missions with high-quality lighting effects to captivate every young adventurer.

## ZOMBIE ZAPPER

Dimensions: 900W x 1700D x 1250H MM

Zombie Zapper combines high-energy zombie chases with a kid-friendly design, allowing young thrill-seekers to lead their own zapping missions. Captivating lights and immersive sound effects enhance every twist and turn, creating a visually stunning and action-packed sensory adventure. Interactive elements encourage hands-on participation, sparking children's imaginations while they navigate the excitement of the chase. Built with sturdy, durable construction, this ride ensures maximum safety and longevity for hours of nonstop entertainment in any venue.

## C1 VAN

Dimensions: 770W x 1300D x 1150H MM

Step back into the 70s with the C1 Van, a cheerful kiddie ride featuring an interactive cockpit and classic rocking movement. A bright LED monitor displays vibrant graphics while lively colored lights and fun sounds capture every young rider's imagination. Available in bold Fuchsia, Lime, and Light Blue, this retro-inspired attraction adds a splash of vintage style to any play area. Combining a nostalgic theme with high-tech features, it creates an irresistible and joyful experience for toddlers and families alike.

## LIFEGUARD

Dimensions: 770W x 1300D x 1150H MM

This lively lifeguard vehicle brings beach rescue missions to life with vibrant details that capture the attention of young adventurers. Equipped with a classic rocking motion, an interactive cockpit, and a bright LED monitor, it offers a fully immersive play experience. Designed for children aged 3 to 10, this sturdy and engaging ride is a perfect fit for arcades and family entertainment centers. It sparks the imagination of every child, providing a safe and exciting way for young heroes to lead their own rescue mission.

## BARN TRUCK

Dimensions: 900W x 1700D x 1250H MM

Inspired by farm life, the Barn Truck features two seats and a delightful touchscreen game that brings rural adventures to life for children. Young riders aged 3 to 10 can enjoy a classic rocking motion complemented by vibrant LED lights and engaging sound effects for a sensory experience. Meticulous design details and a charming aesthetic capture everyone's attention, making it a standout attraction in any family-friendly play area. By combining interactive gameplay with a high-quality build, this ride offers a fun and immersive experience that fosters hands-on participation.

## FANTASTIC CIRCUS

Dimensions: 1300W x 1300D x 2150H MM

The Fantastic Circus transports children to a world of wonder with three playful horse figures and a whimsical, spinning carousel design. This three-seater ride allows friends to share the magic simultaneously, enhanced by vibrant LED lights and customizable sound levels. Operators benefit from a portable, easy-to-transport design and a dedicated emergency stop button for maximum safety and peace of mind. From its colorful aesthetic to its immersive atmosphere, this attraction promises endless circus-themed thrills for every young adventurer.

## TUNED CAR

Dimensions: 1050W x 1850D x 1050H MM

Unleash high-speed excitement with Tuned Car, a single-seat racer featuring an aggressive design and bright, bold colors. Designed for children aged 2 to 7, this interactive ride uses vibrant LED lighting and a video screen to bring the race to life. The competitive styling and engaging play elements empower young drivers to give vent to their desire for speed in a safe environment. Perfect for little thrill-seekers, this high-energy attraction combines striking visuals with hands-on controls for an unforgettable racing experience.

## FIRE DEPARTMENT

Dimensions: 1050W x 1850D x 1050H MM

Unleash high-speed heroics with Fire Dept, a single-seat racer that combines an aggressive emergency-vehicle design with vibrant, bold colors. Designed for children aged 2 to 7, this ride features an interactive video screen and glowing LED lights to bring the mission to life. The competitive styling and engaging play elements allow young drivers to lead their own fast-paced rescue adventures in a safe environment. This high-energy attraction captures attention with its striking visuals and hands-on controls, providing a thrilling racing experience for every little hero.

## POLICE DEPARTMENT

Dimensions: 1050W x 1850D x 1050H MM

Race into action with Police Dept, a high-speed, single-seat cruiser featuring an aggressive design and bold, vibrant colors. Designed for children aged 2 to 7, this ride features an interactive video screen and glowing LED lights to bring the pursuit to life. The competitive styling and engaging play elements allow young officers to lead their own fast-paced missions in a safe, controlled environment. This high-energy attraction captures attention with its striking visuals and hands-on controls, providing a thrilling racing experience for every little hero.

### RX5

Dimensions: 1170W x 2200D x 1200H MM

The RX 5 Kiddie Ride ignites a passion for racing with its sleek design, vibrant colors, and realistic engine sounds that transport kids to the track. This dual-seat racer allows two speedsters to compete side-by-side, featuring a 17-inch widescreen display for an immersive high-definition gaming experience. Flashing LED lights and adjustable audio controls enhance the high-energy atmosphere, making every lap feel like a professional racing adventure. Designed for multiplayer fun, it combines interactive video gameplay with a physical ride to put young adventurers right into the heart of the action.

### SHERIFF CAR

Dimensions: 1170W x 2200D x 1200H MM

There's a new sheriff in town with this vibrant dual-seat ride, featuring an authentic siren and flashing lights to make kids feel like true law enforcement officers. Two players can join forces or compete on the 17-inch widescreen display, providing an immersive and interactive gaming experience for young partners. Integrated LED lights and customizable sound levels enhance the high-energy atmosphere, keeping little adventurers entertained for hours in a safe environment. With its bold design and multiplayer setup, this sheriff-themed attraction combines the excitement of a high-speed pursuit with the magic of imaginative play.

### SPEED TRACER

Dimensions: 1000W x 1540D x 1560H MM

The Futuristic Race Craft features advanced electromechanics and dynamic RGB LED lighting that elevate the excitement of movement to new heights. Two players can enjoy an immersive journey on a 17-inch widescreen display while secured by individual seat belts and a dedicated safety mat. Built for durability, the high-resistance paint ensures this cutting-edge attraction maintains its sleek appearance even with heavy, regular use in busy venues. This high-tech racing vehicle combines striking light effects with interactive gameplay, providing a safe yet thrilling experience for young adventurers.

### LONDON BUS V2

Dimensions: 910W x 1750D x 1620H MM

The London Bus V2 captures the iconic spirit of the classic red double-decker, offering a timeless and delightful adventure for young riders. This spacious three-seater ride features two steering wheels, allowing multiple little drivers to take control and share an immersive journey. Interactive sound effects and vibrant LED lights enhance the atmosphere, while adjustable volume settings ensure a perfect fit for any location. With its charming design and interactive controls, this classic attraction brings a splash of British style and group fun to any play area.

## AMBULANCE

Dimensions: 850W x 1450D x 1180H MM

Hop on board the Ambulance Kiddie Ride for an action-packed adventure featuring flashing lights and sirens that make every child feel like a hero. The dual-seat design allows two young rescuers to ride together, doubling the fun and excitement of every emergency response mission. Safety is prioritized with two integrated seat belts, while vibrant RGB LED lights create a stunning and captivating visual show. This high-energy attraction brings the thrill of a rescue mission to life, providing a safe and immersive experience for little heroes.

## POST SERVICE

Dimensions: 850W x 1450D x 1180H MM

The Post Service Express captures the imagination of children by transforming a classic postal delivery mission into a journey filled with excitement and wonder. Designed for two users to ride simultaneously, the experience is enhanced by striking RGB LED lighting and realistic sound effects that create an immersive atmosphere. Safety is a top priority, with two integrated seat belts ensuring a secure and kid-friendly environment for young couriers of all ages to enjoy the thrill. This unique attraction combines a realistic vehicle design with interactive features, making it an unforgettable and high-energy addition to any family-friendly space.

## FIREGUARD

Dimensions: 830W x 1500D x 1200H MM

The Fireguard Kiddie Ride invites young heroes to embark on an exciting rescue journey, braving imaginary flames through a vibrant and eye-catching design. This dual-seat experience allows two adventurers to ride simultaneously, featuring two integrated seat belts to ensure a safe and exhilarating mission for all. Striking RGB LED lighting and immersive sound effects enhance the gaming atmosphere, bringing the high-energy thrill of a firefighting adventure to life. By combining interactive features with a heroic theme, this ride ignites children's imaginations and provides a stunning visual centerpiece for any play area.

## FIRE TRUCK

Dimensions: 800W x 1700D x 1800H MM

Join Fred on the 4s Fire Engine, a spectacular four-seat ride that immerses young heroes in high-energy community firefighting adventures. One child steers through bustling streets while others use interactive buttons to battle virtual fires displayed on the back-mounted screen. The brightly colored truck features accessible entry from both sides, realistic engine sounds, and high-quality details for a truly authentic experience. Dynamic LED lights and adjustable audio enhance the excitement, creating an unforgettable journey that keeps children engaged and coming back for more.

## FORMULA 1

Dimensions: 1360W x 2200D x 750H MM

Formula Grand Prix by Falgas blends the thrill of a classic kiddie ride with a high-replay video game, featuring a sleek Formula 1 design and solid construction. The 16:9 widescreen LCD monitor brings racing to life with stunning graphics, complemented by spectacular lighting and immersive sound effects for ultimate excitement. Designed for up to two riders, the intuitive single-steering wheel control and pedal-free operation make it easy for young racers to jump straight into the action. Whether playing solo or with a friend, children will enjoy hours of durable, high-quality fun as they navigate vibrant racecourses in this professional racing package.

## PIRATE'S SHIP

Dimensions: 800W x 1600D x 1680H MM

Set sail on this life-size gel-coated pirate boat, designed to ignite the imaginations of young adventurers aged 2 to 7 with high seas treasure hunts. The dual-seat cabin features a 17-inch widescreen display where one or two players can engage in the competitive "Pirates Battle" video game. Unique lighting and immersive sound effects create an enchanting atmosphere of intrigue, making little sailors feel like they are truly exploring the vast ocean. Built with high-resistance paint and durable construction, this charming attraction ensures long-lasting interactive play sessions while maintaining its captivating, vibrant appearance.

## MOTO EASY RIDER

Dimensions: 1000W x 1450D x 1000H MM

The Moto Easy Rider invites solo riders to cruise the iconic Route 66, enveloped in an immersive highway atmosphere with realistic engine rumbles and whistling wind. The electronic handlebar grip and high-quality stainless-steel details provide authentic motorcycle handling, making every child feel like they are conquering the open road. A 3-channel light sequencer and strategic LED lamps create a captivating visual display that pulses in perfect sync with the bike's rhythmic movements. Equipped with dual digital interactive speakers and dynamic light effects, this single-seat chopper combines premium craftsmanship with a high-energy sensory experience.

## GRAND PRIX MIX CAROUSEL

Dimensions: 1700W x 1700D x 1600H MM

This unique carousel features an airplane, a car, and a motorbike seat, offering a vibrant variety of interactive steering wheels and handlebars for every child. The three-seater design allows friends to ride together while enjoying an immersive atmosphere powered by built-in MP3 music and illuminating LED lights. Safety and convenience are prioritized with a dedicated emergency stop button, hassle-free assembly, and a compact 160 cm footprint ideal for smaller venues. By combining three distinct vehicle themes into one high-energy attraction, this ride sparks the imagination and ensures there is a perfect seat for every young adventurer.

## CIRCUS CAROUSEL

Dimensions: 2270W x 2270D x 3400H MM

This fantastic carousel brings the classic up-and-down motion to life with three distinct figures—a car, a horse, and an elephant—to delight babies and toddlers. Super bright, long-lasting lights and interactive sound effects create a magical ambiance, while operator-adjustable volume ensures a comfortable experience in any setting. Built to withstand various weather conditions, this durable ride is suitable for both indoor and outdoor use and includes a two-year factory warranty for ultimate reliability. Supporting multiple languages and designed for diverse audiences, this versatile three-seater attraction guarantees smiles and excitement for young adventurers around the world.

## SQUARE BUS

Dimensions: 1500W x 1800D x 1100H MM

Take a ride on the Square Bus, an award-winning single-seater cruiser that brings the charm of authentic London double-deckers to young adventurers aged 2 to 7. Equipped with vibrant LED lights and high-quality sound capabilities, this coin-op attraction creates a captivating sensory experience that captures everyone's attention. Interactive features allow little drivers to engage in immersive play, sparking their imaginations as they navigate the busy streets of a virtual city. This compact and durable ride combines a classic design with modern technology, making it a standout high-energy addition to any family entertainment center.

## RACE CAR

Dimensions: 750W x 1700D x 1100H MM

This Formula 1 car is perfectly scaled for two children, blending a spacious design with interactive dashboard functions that let young drivers fully engage with their racing adventure. The ride features varied movements, themed engine noises, and a vibrant array of stickers, all enhanced by integrated LED lights for a high-energy, immersive experience. Built with convenience in mind, the coin acceptor and electronic systems are neatly housed within the body and easily accessible through dedicated service doors for simple maintenance. Designed for children aged 2 to 7, this dual-seat racer provides a practical yet thrilling journey that captures the speed and excitement of the racetrack in one sleek package.

## MOTO GP1

Dimensions: 700W x 1300D x 1100H MM

The Sport Bike features a flaming red racing line and a roaring engine that delivers pure adrenaline for young riders aged 2 to 7. This single-seater cruiser captures the excitement of a high-speed race with its aggressive styling and integrated interactive features for an immersive experience. Equipped with vibrant lights and high-energy LED elements, the bike creates a captivating visual show that ignites the competitive spirit in every child. The combination of realistic sound capabilities and sleek design ensures a thrilling journey that brings the heart-pounding desire for racing to life.

## HELLO KITTY HAPPY CAR

Dimensions: 730W x 1350D x 1200H MM

The Hello Kitty Car brings joy to young fans aged 2 to 7, featuring a vibrant pink design and a charming licensed theme that transports children into an enchanting world. This dual-seat ride allows two little adventurers to zoom through imaginary landscapes with Hello Kitty as their faithful companion, ensuring shared fun and maximum security. Interactive dashboard features, immersive sound effects, and glowing LED elements keep children engaged while providing a safe and captivating high-energy experience. Combining a beloved global character with striking visuals, this ride creates an unforgettable journey that captures the hearts of young riders and brightens any play area.

## PRINCESS FAIRY TALES

Dimensions: 800W x 1800D x 1300H MM

Step into a royal carriage and embark on an enchanted journey through fairy tale forests and majestic castles, making every child aged 2 to 7 feel like true royalty. This single-player experience features a gorgeous pink cabinet designed as a princess carriage, complete with a high-definition interactive screen and vibrant graphics. Bright red lights and whimsical music enhance the charming atmosphere, transporting little divas into a world of magic and discovery alongside their favorite characters. Combining a stunning visual design with high-energy sensory effects, this whimsical attraction provides an unforgettable and safe adventure for every young princess.

## THE ROCKET

Dimensions: 1550W x 1550D x 2150H MM

The Rocket sparks imagination as young astronauts experience the thrill of double-circle spinning, simulating a high-energy space adventure designed for two brave explorers. Equipped with a 250kg weight capacity and three-point seat belts, the ride features cutting-edge safety sensors that immediately halt movement if an obstruction is detected. The vibrant, brilliant colors and interactive intergalactic theme instantly draw attention, encouraging friends and family members to team up for a daring cosmic mission. Combining a robust safety system with a captivating, multi-dimensional spinning movement, this rocket provides a secure and unforgettable journey through the stars for every child.

## COGAN AIRPORT

Dimensions: 1300W x 1650D x 2050H MM

Cogan Airport invites young aviators to embark on a thrilling journey with cool up-and-down motions that simulate the joy of soaring through the clouds. A vibrant and captivating non-interactive video screen mesmerizes children, bringing the world of flying to life through high-energy visuals and stylish appeal. Designed for both excitement and peace of mind, this secure ride provides a gentle experience that keeps kids begging for one more aerial adventure. With its hassle-free setup and reliable operation, this interactive airport ride is a convenient and attractive addition to any FEC lineup or play area.

### CEMENT TRUCK

Dimensions: 850W x 1550D x 1350H MM

The Cement Truck invites young builders into a high-energy construction site where they can navigate through busy projects and pour concrete in a safe, interactive environment. This dual-passenger ride features a crisp 17-inch screen with memory video games, allowing two children to enjoy a challenging and immersive experience together. Mesmerizing RGB LED lights and individual seat belts ensure a captivating yet secure journey, sparking creativity and imagination with every turn. Available with or without the interactive video game, this versatile ride combines striking visual effects with the thrill of building towering structures.

### MAX TRUCK

Dimensions: 850W x 1550D x 1300H MM

The Max Truck invites young adventurers to transport sand and gravel through pretend construction zones in a rugged, colorful vehicle designed for high-energy imaginative fun. This dual-passenger ride features a crisp 17-inch screen with interactive memory games, allowing two children to tackle construction challenges together in a safe, secure environment. Mesmerizing RGB LED lights and individual seat belts provide a captivating and protected experience, ensuring every little worker stays engaged while navigating the site. Available with or without the video game feature, this versatile truck combines striking visual effects with a durable design to spark creativity in kids of all ages.

### ICE CREAM VAN

Dimensions: 830W x 1630D x 1720H MM

The Ice Cream Van invites two children to team up and compete in a high-energy video game, fostering friendly rivalry on a crisp 17-inch screen with immersive sound effects. Striking RGB LED lights create a captivating visual display that draws in families, while the refreshing theme transports young players into a virtual world of exciting challenges. Safety is a top priority, with two individual seat belts and a secure design ensuring a worry-free experience as kids navigate through their interactive ice cream adventure. This vibrant attraction encourages repeat play by blending competitive gaming with a colorful, sensory-rich environment that stands out in any entertainment venue.

### EXTRACTOR 2

Dimensions: 1650W x 1050D x 1350H MM

The Construction Extractor invites two young builders to operate their own heavy machinery, featuring a realistic design with high-resistance yellow paint and dynamic motions. This high-energy ride includes a competitive video game on a 17-inch screen, allowing one or two players to engage in exciting site-themed challenges. Striking RGB LED lights and high-quality sound effects create an immersive atmosphere, while the perfectly sized seats ensure a safe and comfortable experience for toddlers. Combining an authentic operating feel with interactive digital play, this extractor provides an unforgettable adventure that leaves children and families thrilled and amazed.
